PPLPMDL0080000001	Lakewood	OH	44107	11/26/2001	informed doc of medicaid prio auth for #120. Has not had problem. so far. He asked about 160 tabs. did say that we have stopped shipping but that rite aid on kamms corners has some left. he said he rarely has a pt that high, not because he leaves oxy, but that the pt is controlled. He does rx tid and qid and insists that we are poorly educated and naive to think that titration should precede shortening intervals. could not break that down with him, but need to cannot due lunch try to catch before pts.
PPLPMDL0080000001	Uniontown	OH	44685	11/26/2001	Quick hit, she put one new patients on OxyContin from vicodin, taking 5 a day she put on 20mg q12hr, he was a 38 yr old LBP patient. Used the Marcus reprint.

Only when he knows that someone is misusing the drug should he consult with a parran and implement extra controls. He said he cannot get a hold of parran because parran wants pts. to call for appt. But my point was taken. I insisted that he start doing urine screens but kim claims no one wants to work with him! Find reference for level of opiod matching level of pain. Get him to go up in dose!

He is part of a group of physicians out of Michigan that do nothing but nursing homes. He said he uses Oxycotin, but likes Duragesic as he said he was trained with it. I explained that absorption of the patch may be somewhat erratic. He asked if we could provide a speaker for his organization on pain management. I explained our new procedures. I also gave him a copy of the AMDA guidelines and went over the new conversion chart with an emphasis on moderate pain.

Try to convince him that unless he is doing those egregious violations, he has nothing to worry about and his pts. can get the real pain control they need. He always seems to agree,(but his rx's continue to drop). I told him if I bring Burke to Cleveland, he had better well attend. He said he would, and Musca. In the meantime, I said he might as well just tell pts to take tylenol instead of giving Darvocet, for all the good that does. He is convinced everyone is lying. I told him that is probably the case 10% of the time, and when they catch someone, dc them. But don't make the other 90% suffer too! See if can get appt time with him to chat longer, but definitely need to get Burke in here.

	Northfield	OH	44067	12/6/2001	Doc is truly interested in learning. We talked about a pt. he had that was doctor shopping for vicodin. Doc had pharmacy tear up rx. He wondered if he could turn that pt in without violating pt/doc confidentiality. I showed him in Burke's handouts that once a pt deceives a doc that confidentiality has been lost. But encouraged doc to use agreements to put teeth behind deception, that pt. signs on to go to only one doc and one pharmacy, not titrate self without doc permission. Gave him doc kit crom, doc will use. Also encouraged doc to send to Parran to diagnose and urine screens for coke or heroin. Doc said he had a mental limit of 20 q12. But has back surgeries that failed and pts in pain. He was afraid of phys dependence/addiction. We discussed the diff between the two and talked about non-mal pts on grams a day and completely functional. Doc was curious about pt being allowed to drive on that high a dose. Explained that as long as level of opiod matches level of pain, pt ok, but would find out more about that. But reviewed titration guide and explained to doc to go slow until he is comfortable, but there is no reason to treat pain. Doc is into medical legal stuff. work on those titrations.

	Akron	OH	44302	12/13/2001	found julie mds right arm on the oncology floor treating pts asked if i could get together with her and pain team further discussed that they are writing ms contin for 97% of non malignant pain pts states because these pts are to be questioned whether they are legit they get these pts form other pain clinics after they have been kicked out or after making the rounds to pcg mds. for example they just got a pt that bressi kicked out the pt was smoking marj. qd. team thinks they can help pts even potential addicts by making them go to psych and sticking to a contract once they break that contract they kick them out. thought is to give them a drug that has a low street value and that way they can tell if the pts are serious pain pts they know that ms contin is not as good a drug but they dont care at this point and julie stated the reality is they do not have 45 min to stay on the phone for a medicad consult when 10 other pts are waiting for their appts. petrus just had a pt akter a script when i had my apt ---explains his frustration at the time. asked julie the importance is not to forget the legit pain pt and not to stereotype these pts as i gave her my cousin as a example explaining she as well as myself and family would be crushed and outraged if her md said it was too much work to write her oxycontin--she also is on medicad and foodstamps julie was silent POA: ctd to focus on those pts not in question as to whether they are legit or not get Petrus to sign up for script pads
PPLPMDL0080000001	Westlake	OH	44145	12/13/2001	doc supervising all the or's, iurassi off this week. did get rx's. no clinic today. Reminded him of reliable results with oxycontin. Follow up after holidays for when initiating opioids v blocks.

PPLPMDL0080000001	Akron	OH	44304	12/13/2001	md said i didn't need to discuss oxycontin with him i then asked if he had a new pt to share with me that had "mod to sev pain ,,,,,,,,,,,,,," that he has started on oxycontin. Did not have one he could thinkof POA: ctd to share indication and ask for his new pts -- find out from sue how many new pts these mds get that don't come from upstairs
PPLPMDL0080000001	Middleburg Hts.	OH	44130	12/13/2001	discussed using post opertively for total knee and rotator cuff procedures, vs prn tx. pt are experiencing greater nausea with oxy than vicodin. we discussed bowel and anti emetic protocol for pts as being standing orders for ocy pts.
PPLPMDL0080000001	South Euclid	OH	44121	12/13/2001	he's doing breast & abdominal procedures which could be OXYCONTIN candidates. pharmacy stocking held back in past told him to have pt. fill around here / CVS at Green & Mayf
PPLPMDL0080000001	Richmond Heights	OH	44143	12/13/2001	he's been using more and more oxycontin. He has has to do a significant amount of counseling of patients in the over 55 age group because of the negative press. He only uses tid regimens about 15% of the time because of the wearing off effect and he feels that when it wears off it's done. we discussed the 48 hours program and he feels that he'll be unaffected and keep writng for ocycontin he doesn't like to deal with teh hassels of addiction and pharmacy worried about robberies but it comes with the territory. He doesn't go above 40mg tid unless he feels that the patient is very co-operative with their treatment plan and has been showeing continula
PPLPMDL0080000001	Akron	OH	44304	12/13/2001	this md is extremely scientific--only interested in a study hard to approach and get info out of -- introduced myself and probed regarding oxycontin but md not receptive POA: ask Karen and Radika about mds pain mgt and how much influence they have on him
PPLPMDL0080000001	Mayfield Heights	OH	44124	12/13/2001	he uses duragesic because some of the older people think it's easier to use. ie he thinks it's easier to use. He was unaffected by the news story last night. I asked him if oxycontin would be abetter fit for someone that has chronic fluctuating pain because of hte asymmetrical dosing he said maybe
PPLPMDL0080000001	Lyndhurst	OH	44124	12/13/2001	only got to mention oxycontin to doc. he was obviously flustered about something. scheduled a lunch for the 27th. find out why using more dura. discuss reliable results with oxycontin and xost. Marsha too busy as well to chat, but find out pt. response to dura.
PPLPMDL0080000001	Warrensville Hts	OH	44122	12/13/2001	asked him about the pt he switched from perco to oxy, he says doing well, talked about any other pts, says he does have a few taking lorcet atc, talked acversion

	Westlake	OH	44145	12/13/2001	Per Linda; doc primarily uses percocat for post hysters. Says it makes sense that if he is having ATC pain to go with Oxycontin. Discussed benefits of stable plasma conc., sleep benefits, productivity of nurses on unit. Linda worked on a unit before, so she knows, especially because they are always short staffed. Discussed dose 10mg 1-2 q12h and titrate. Told her to use in house to get comfortable with concept, then use for homegoing orders. We discussed, right out of ahcpr guidelines, to give fixed for 4 home days then use prn for exacerbations. Not phased by 48 hour report. discussed how to explain to pts who are concerned, ask if use heroin or cocaine. Also discussed chronice pelvic pain pts who usually don't have objective findings. We discussed watching for red flags, then taking action, but to not assume guilty before pt. gives reason. Next call, check on pts starts and give

PPLPMDL0080000001	Akron	OH	44304	12/13/2001	met md as he was leaving unit discussed oxycontin titration (md needs help) - gave him a pamphlet which he admitted to not being up on the dosing (maybe why the duragesic??) tried to brush off pain mgt on the medical oncology group upstairs asked him if he sees new pts which he does asked to discuss those pts and the appropriateness of oxycontin--md was paged --receptive to talking about pain mgt another time POA: start with his new pts and where he begins pain mgt
PPLPMDL0080000001	Akron	OH	44304	12/13/2001	initiated discussion by asking md how he assess pain if he or his nurses ask the pt about their pain---- most of the time the nurse catches that their opiod needs increased but he initiates therapy titration discussed and asked me to discuss with nurses it is obvious this practice puts pain mgt in the nurses hands POA: ctd to work with nsg staff shared advantages of oxycontin vs morphine along with ginsbergs points from chrsty. Radika stated that Abramovich and the others agree whenever the nurse asks to switch to oxycontin. painted the picture again of short vs long and asked staff to keep a watch for those pts each day on short actings around the clock that are still in pain (indication) and switch to oxycontin to improve their lives

PPLPMDL0080000001	Akron	OH	44304	12/13/2001	invited md to join us for lunch-- md not too concerned with pain mgt that was obvious md immediately brought up the press and asked how the co is doing info given and transitioned into ca pts in pain said it was a great drug and his long acting of choice sees less nausea and side effects overall -- states he startes oxycontin when pt is takin 6 short acting or when pain is severe. Shared indication with him quality of life advantages with oxycontin's delivery over 12 hours POA: nursing staff has the pull in this office after discussion md was in his office and the nurse asked him to switch a pt on kadian to oxycontin md refused and has her dose the kadian twice a day--discuss advantages of oxycontin over morphine with md

PPLPMDL0080000001	Middleburg Hts.	OH	44130	12/14/2001	very bright right on pa, she was very knowledgeable about opiate use and terminology. very positive on oxy just needs freq reminder for doc. went over conversions, delivery adn potency issues, indication for mod to severe adn discussed many jo's "severe" abcess tooth pain in which she took percocet and it didnt touch her pain, just made her tired, did NOT recommend oxy, but we did suggest motrin family products
PPLPMDL0080000001	Middleburg Hts.	OH	44130	12/14/2001	very positive call, first time meeting. says he likes oxy feels media is hurting us and doesnt understand why. he is bright guy, he understands useage of oxy adn seems to simply forget to think about it....he is going to conduct a local study of his own, every other pt to either oxy vs percocet, which seems to be his most frequent product used, will recommend senokot
PPLPMDL0080000001	Westlake	OH	44145	12/14/2001	cannot leave samples here. Pat will call with lunch dates. Doc savona here full time too, otherwise bunch of docs rotating out this wayd one day a week.
PPLPMDL0080000001	Richmond Heights	OH	44143	12/14/2001	I asked him if had any new starts on oxycontin and he said he did. I asked him how hte patient is doing he said it always works they always do good. I think he's a yes man. Not everyone does well on narcotics and side effects are a real part of using opioids. I asked him to think of using oxycontin in elderly patients with risk for renal insufficiency or hx of stomach ulcers
PPLPMDL0080000001	Akron	OH	44311	12/14/2001	sleep thru the night, Q12h, increase dose if patient is taking more than 2 rescues in a 24h period.

PPLPMDL0080000001	Beachwood	OH	44122	12/14/2001	Lunch with Pam. Will discuss how often the increase doses on their hospice pts. Will also discuss setting up a pain in-service for the nurses. Discussed the recent media blitz with Pam over lunch. She is disgusted by it and does not let it affect her way of doing things. She is a strong Oxycontin supporter.
PPLPMDL0080000001	Akron	OH	44310	12/14/2001	sleep thru the night, assess, treat, document. Increase dose to comfort if taking more than two breakthru's in a 24 hour period.
PPLPMDL0080000001	Akron	OH	44333	12/14/2001	rotator cuff repair larger guy, he wrote OxyContin 1-2 10mg tabs q12h with vicodin prn.
PPLPMDL0080000001	Akron	OH	44333	12/14/2001	said he has had some patients that have not wanted OxyContin going to give to a man in which he is going to a forehead procedure in past taking 2 percocet every 4 hrs so having him take 2 20mg q12h.
PPLPMDL0080000001	Akron	OH	44333	12/14/2001	Using on scaphoids, ulnar fracture repairs and most sever pain patients, bone involvement. 10mg q12h 1-2 with vicodin for breakthrough pain.

PPLPMDL0080000001	Akron	OH	44333	12/14/2001	has a scaphoid procedure using 1-2 10mg tabs q12h, but he is using more vicodin now.
PPLPMDL0080000001	Warrensville Hts	OH	44122	12/17/2001	followed up to last week, says that he has switched 2 pts since then from dura to oxy, says that he will continue to convert, cont to follow up
PPLPMDL0080000001	Akron	OH	44333	12/17/2001	Used the Piece to compare generic theo vs Uniphyl.
PPLPMDL0080000001	Garfield Hts	OH	44125	12/17/2001	Jeannie said staff mtg this evening. wanted side effect mgmt file card. none to give. they are going to create folders for each unit with equianalgesic charts and the side effect notebooks. Eventually want to give to all doc at Huron. Likes the idea of using oxycontin post op. did not hear abramoff's presentation, but I explained that the concept comes right out of ahcpr guidelines. Told me to call Terry, who runs the unit to put something together for staff on floor. As far as doc's, he will see about adding me to a dept. meeting, but said that they rarely show up so may be better to hit offices. gave him dosing. best to catch here, always running behind in
PPLPMDL0080000001	Cleveland Hts.	OH	44118	12/17/2001	Next call: he doesn't like getting specific. give him a bullet about the product and let him use the information. he easily perceives sales messages as telling him what to do I saw Alice briefly and she says their using as much oxycontin as they ever have but early view shows them down for 6vs6. I asked her if they have any totla knees coming up that would be good candidates for oxycontin and she said after the holiday they have some
PPLPMDL0080000001	Shaker Hts	OH	44122	12/17/2001	hit new start message for NSAID failures next get another lunch and detail on starts close for candidates
PPLPMDL0080000001	East Cleveland	OH	44122	12/17/2001	asked him for any pt that is taking atc meds for atc pain, short acting, says he does have a pt that is on vico and is not doing well, talked about conversion to oxy doc will use oxycontin at Huron. She asked about availability. I explained that the hospital has it and supports its appropriate use. She will order, she liked it at Euclid. She will be gone for 3 week and then start new schedule on Jan 4.
PPLPMDL0080000001	Cleveland	OH	44102	12/17/2001	Met with Dr. Menyah. He spent a lot of time discussing his trip to the Atlanta pain meeting. We also spent a lot of time discussing the media hype. He thinks our competitors are fueling the fire. He is still very much on board with Oxycontin and continues to be a huge supporter of pain management.
PPLPMDL0080000001	Euclid	OH	44119	12/17/2001	doc says Euclid still not stocking chiro. need to get dan to make phone call. Jodi, docs asst in or says glenn will not stock unless dan calls. told doc I thought it was all taken care of because Dan called pharm right in front of me and I even followed up with pharmacy and they said they got the call. Get a hold of naps. Doc says he is strong with the oxycontin. Not phased by media hype. Most of his pts are older and go with his suggestions. He will usually initiate opiod if his blocks do not provide extended analgesia. If someone is non compliant or has a head or neck issue, he will go with dura. Next, find out if he will leave oxyat any point. He said Junglas, and Itani, and Brooks would be best guys to discuss going to oral meds sooner, because they use a lot of pca's for a long time when pt could clearly be on oral meds.
PPLPMDL0080000001	Cleveland Hts	OH	44118	12/17/2001	doc lost his wife! terrible tragedy since he lost his daughter just a year ago. Just wished him a happy holiday season. He is going to Barbados with his son and is leaving Wed!f Not coming back until mid Jan. Booked a lunch for w25 for Jan 23.
PPLPMDL0080000001	Mayfield Hts	OH	44124	12/17/2001	doc said she watched some of the 48 hour program. had to turn it off because they made it sound like addict was some innocent person who came upon this drug that turned him into monster. she would like slid kits, I explained that she would have to send in a request on letterhead and send with business card. get her theaddress to send request.
PPLPMDL0080000001	Warrensville Hts	OH	44122	12/17/2001	see notes

PPLPMDL0080000001	Garfield Hts	OH	44125	12/17/2001	Jeannie said staff mtg was this evening. wanted side effect mgmt file card. none to give. they are going to create folders for each unit with equianalgesic charts and the side effect notebooks. Eventually want to give to all Met with Diane. She told me that Ann is leaving and Diane put in for the D.O.N. job. Diane is working on getting the algorithm on pain management ready for the facility. JCAHO is early next year. Bill, the pharmacist says that there is only one addict on the floors now. HE needs lots of education and is very set in his ways.
PPLPMDL0080000001	Cleveland	OH	44102	12/17/2001	Met with Maureen. We discussed their move to Hillmed Pharmacy. She said the outpatient hospital pharmacy was not meeting their needs as far a delivery was concerned. She is also a supporter of Oxycontin, however, she said Gundapenini was a little skiddish on Oxycontin, even for hospice pts. Will need to go see him.
PPLPMDL0080000001	Hudson	OH	44236	12/17/2001	went over proper referrals of laxative for drug induced constipation, and no generic rated for uniphyl

PPLPMDL0080000001	S Charleston	OH	45368	12/17/2001	Wanted Oxycontin conversion guide. Also left a lot of Senokot for hospice pts, seeing more Oxy for Hospice. Uniphyl conversions
PPLPMDL0080000001	Cleveland	OH	44195	12/17/2001	hit comparison to perc. in ER and focused on stones kidney/gaul soliciting me for April entertain \$ for Quarterly EM Jeopardy event including IM residents
PPLPMDL0080000001	S Euclid	OH	44121	12/17/2001	followed up on the lunch asked about new starts - has one will try the pain agreement with them. next follow up and close
PPLPMDL0080000001	Akron	OH	44333	12/17/2001	Pts do not want to use OxyContin post op.
PPLPMDL0080000001	Norton	OH	44203	12/17/2001	She is backing off of opioids and OxyContin in general, she said she just had to take a patient off of OxyContin for misuse. Uniphyl, for COPD specific emphysema patients.

PLPMDL0080000001	Tallmadge	OH	44278	12/17/2001	thanked for bus, gave cookie tray. is using oxy, media hasn't curbed useage. hasbt aany recent issues with staff or pt concern with addiction, he screens pt and uses an opiate agreement
PLPMDL0080000001	Cleveland	OH	44195	12/17/2001	quick hit product mention -helped me with PDA info
PLPMDL0080000001	Akron	OH	44321	12/17/2001	He said as long as not selling opioids he will give it to them, OxyCcontin for chronic back pain or degenerative disc disease.
	Warrensville Hts	OH	44122	12/17/2001	doc likes he is losing interest in duragesic mainly because it is difficult to titrate. he likes being able to adjust dosing to match pts need, more during day, less at night. too many days to titrate. I added that you have the right pill mixes with oxy to titrate 25 to 50 % instead of increasing dose 100%! He really opened his eyes to that comment. Did not really close for anything, but thanked him for coming back to oxycontin. They had all sorts of Christmas stuff going on, so tough to talk shop. Carolyn's son and Chris' daughter were santa and elf.
PLPMDL0080000001	Cleveland	OH	44121	12/17/2001	quick product mention gave titration calc have appt. hit all products and focus on perc conversions for NSAID failures
PLPMDL0080000001	Beachwood	OH	44122	12/17/2001	talk about oxy vs vico business, gave him new titration and conversion guide, take off core list, difficult to see, smalls maybe can see at hill crest
	Shaker Hts	OH	44122	12/17/2001	lunch, talked about oxy 40mg dose, he has several pts on 20mg dose and asked if taking bt meds, he says that most of them do take something from darvocet to vico, talked about any pt taking more than 4 per day, he says yes, titrate to 40mg
PLPMDL0080000001	Cleveland	OH	44106	12/17/2001	gave titration and skt info goes Perc then MSC then OxyC due mostly to formulary here. allot of time on media but claims not changing practice next find dose with MSC then go oxyC?
PLPMDL0080000001	Beachwood	OH	44122	12/17/2001	talked about titrayion of pt he has that is on oxy 10mg, needed 4 vico per day for bt pain, titrated to 20mg, follow up
PLPMDL0080000001	Warrensville Hts	OH	44122	12/17/2001	talked about oxy and the fact that it is the same as the perco he is writing, still feels to much meds, talked about how to titrate the pt down as needed, talked about conversion

PPLPMDL0800000001	Oakwood	OH	45873	12/18/2001	a- focus on shrot quick hit asked about patients that he would be seeing today that he would be using vic as a refill went into indication, asked him to start a new patiien on oxy , smooth pain control q12 compared to q4,q6 etc said it would depend on casse agreede asked if had one come to mind would not say c-asked for rx
PPLPMDL0800000001	Barberton	OH	44203	12/19/2001	He is using more percocet, failed backare the pts types that are getting OxyContin, main fear is diversion of OxyContin.
PPLPMDL0800000001	Barberton	OH	44203	12/19/2001	md talked of oxycontin in the past tense "Oxycontin was the best drug" I corrected him with "is" he states: i have about 20 pts on it i had to put a lady back on it that i switched over to duragesic patch which she states runs out the 2nd day. variability then discussed he admits its not very good. Discussed diversion stats of 13% as a high number asked for the other 80 plus% of pts. he agrees but has difficult telling which are the abusers he did slip and say he feels pressure to write the other pain drus but when i clarified he denied saying it. i asked for new pts that fit the indication and not to let the last 2 pts that "fooled" him ruin his opinion. also asked why he would deny the legit pts "the best" medication? he even said to tell my boss that when that new abuse proof med comes out the mds will write again shared that that is unacceptable! POA: keep on md ask him how he begins to differentiate if a pt is "scamming" him What steps does he take to protect himself
PPLPMDL0800000001	So Euclid	OH	44121	12/19/2001	gave titration /conversion calculator hit 10 pt plan and offered rx pad -dosnt have problems with diversion but pharmacies sometimes won't fill rx

PPLPMDL0800000001	Cleveland	OH	44113	12/19/2001	talked with cindy- basically starts after short acting failures (find out what is), if it is going to be on for a long time, he will go to oxycontin. mainly failed backs or crushed shoulders (most referrals coming from orthopods) then he will go to oxy 10mg for a month or two, and only then will he titrate up, a little to slow. he does get up to 120 q 12. He will go to dura if someone is having side effects or has trouble handling orals. But Cindy admitted the problems with the patch are adhesion, titration. Next call find out if doc maintains and equianalgesic dose of oxy to the short acting and why doc is waiting so long to titrate.
PPLPMDL0800000001	Cleveland	OH	44106	12/19/2001	Beth McGiver, Michelle Ramirez, Don Eicher, Debra oxycontin approved only for mscontin failures. most go to oxycontin due to side effects. do use duragesic for head and neck pts. and those who have trouble swallowing. Carol had a bad experience with oxycontin where she was started on 20 q12 and had horrible nausea, here she thought 20 was too much and split the pill. Explained to docs that is why a 20 should be 2 10's, easy titration. discussed comparison of oxy and dura- onset, titration, plasma concentrations.

Explained to docs that is why a 20 should be 2 10's, easy titration. discussed comparison of oxy and dura- onset, titration, plasma concentrations. Debra did a real good job discussing fears of oxycontin with a pt. who was concerned addiction and about it being in the house with small kids. She did a great job reassuring him that unless he is a cocaine or heroin addict, he won't become addicted and that he should be sure to keep ALL his drugs in a safe place. I added my two cents in, but she did a great job.

PPLPMDL0800000001	Lyndhurst	OH	44124	12/27/2001	new pts- pts usually on short acting if anything when he sees them. doc generally starts pts on oxycontin if he feels their pain will be chronic, such as bone mets. otherwise, he will trial percocet. He will start out with 10's if pt not on opiod, or do straight conversion if on opiod already. He usually finds pts dose within two weeks. Discussed the short half life of oxy allowing him to get pt to proper dose quickly, titrate every other day, opposed to patch, which would take much longer. He will leave oxy if pt has bad nausea or vomiting, goes to patch. He also hinted that if pt had "social" problems, might lean towards patch, but clearly stated not an issue in his practice, left it at that. Also will use patch if pt. cannot take po meds or has trouble swallowing. Discussed most new pts seen in Ashtabula, but closed on initiating those who can take po on oxycontin and titrating to effect. Other questions, what dose perc? how many a day? if initiate la with patch, what conversion ratio- cost! moderate pain?

PPLPMDL0800000001	Beachwood	OH	44122	12/28/2001	doc recanted and said he did not get x's, he said he meant he faxed the form, but has nothing yet. need to call and find out what problem is. He had a pt start this morning, told me she was on patch, but she was getting poor pain control and thought it was not as convenient as she thought it would be because it doesn't stick well! Doc thought that had to do with her poor pain control. He said he tried the patch because she is typically a poorly compliant pt. We discussed about setting times each day to dose.

PPLPMDL0080000001	Euclid	OH	44132	12/28/2001	talked to sue. said doc is pretty elusive, but goes to tumor boards at 8 am at Euclid. He just started a pt. yesterday, pt has prostrate cancer and was on lorcet, but he was waiting until he had pain. They put him on 20 q12 and told him tonot miss a dose. She did say he will throw on a patch after about 60 q12. We talked about trying to stay with one analgesic because of the problems of detecting which is causing side effects or how will you titrate! Sue said could call Cheryl at Mentor and set up lunch on his day out there. but no guarantee he will show. Might be good to qualify nurses role in making suggestions for drugs, or at least titrating before adding the

PPLPMDL0080000001	Uniontown	OH	44685	12/28/2001	He does hospice work, asked why can't get 160mg. He likes the ease of titrating and using Oxy IR for short term pain exacerbations, talked about arthritic pain, cancer pain and any chronic noncancer pain. Not using theo unless last resort went over the benefits of theo, no patients. senokot-s for hospice patients.
PPLPMDL0080000001	Cleveland	OH	44109	12/28/2001	in clinic, talked about pt that was using oxy and was in need of alot of bt meds, talked about titraing to 20mg q12 will do, low back, follow up
PPLPMDL0080000001	Cleveland	OH	44195	12/31/2001	brought up sunshine reprint and explained to staff that oxycontin clinically proven effective for m oderate pain (less than 100 mg m orph a day). Every appreciated reprint. Get Ginsberg as soon as released again! Lots of post op stuff. June said she is writing as much as she can, but her only concern was whether or not the surgeons will follow. I explained to her that they told us if asps started the oxy, they would follow. Basali told me he would speak on behalf of oxy for medicaid if they tried to restrict because of abuse. But cost was another issue. He would support using cheaper therapy if pt. could tolerate, but with stip that oxy be available at some point.

PPLPMDL0080000001	Cleveland	OH	44106	12/31/2001	Doc not involved with the conversion calculator. Discussed DEA statement on abuse of opioids. He was aware. Asked him what he thought implications for painmgmt would be. He did not think it would carry much weight because DEA does get down on docs and makes them uncomfortable about xing. We discussed Commander Burke comments on docs who get in trouble. Rosenberg said the perception will take a long time to change. He was happy to hear them come out with this statement. Did not get into a detail on oxy, but have to get to it somehow with him. Really upset that we promote post op, but have to make the case that even Boswell is changing his mind for total joint replacement type procedures. Figure out a way without offending.

PPLPMDL0800000001	Hudson	OH	44236	1/3/2002	his usagee of all opiates are down, he says he uses and feels comfortable with oxy but the media has pummed us in the abuse adn diversion areas. that does hinder his writing of our product, his singles are down alot including duragesic, doesnt use theophylline only refills pt that are elderly adn currently on from pulmonologist
PPLPMDL0800000001	Cleveland	OH	44115	1/3/2002	Discussed Oxycontin and the media with Dr. I explained our new procedures for speaking programs. He is using both MS Contin and Oxycontin, although it appears from the rebates that Oxycontin in moving better.
PPLPMDL0800000001	Warrensville Hts	OH	44122	1/3/2002	Ashta.- Doc will most likely not be coming out here for very long. No news on if he will be picking up new office. Said he is coming back more and more to OxyContin. Left really for no reason but was speaking lots for kadian and duragesic and felt compelled to rx. I explained that if appropriate, those drugs should be used, but that oxycontin did offer great efficacy and flexibility at more savings! He claimed he would be going back to oxycontin doc would be happy to support oxycontin to medicaid if needed. He does not believe that it should be taken away as an option, although he agreed with the idea of trying to keep costs down. He wondered if related to abuse potential. We explained what Purdue has been doing in that regard, with support of statewide database. He wants that in Ohio, see how we can facilitate, but he wants to be involved and thinks the clinic's clout can go a long way to moving it through! He is satisfied with results of oxy for post op pts. who are on opioids etc because they do sleep better.
PPLPMDL0800000001	Cleveland	OH	44113	1/3/2002	Dr. remembered I was the Oxycontin rep. He said that he has about 40 nursing home pts. and 25 of the are at St. Augustine Manor. Five are at Treemont and the rest are scattered. He said that he is aware that Darvocet is not being used at St. Augustine Manor. He said they are using 100% Oxycontin. I explained that we are trying to not use PRN meds for chronic pain. He said he was aware. He didn't give me much time. His single entity opioids scripts /month has gone down, but his Oxycontin market share is over 90%. He is a big CII user and uses a lot of Darvocet. Also a big xanthanie use.
PPLPMDL0800000001	Cleveland	OH	44109	1/3/2002	talked about oxy in post op burn unit setting, alot of these pts need to have many surgeries, now using alot of perco, asked him about using oxy 10mg dose in the poat op setting, will do
PPLPMDL0800000001	Cleveland	OH	44109	1/3/2002	talked about using oxy after the pt is off of iv, he says that he like to go to ms, talked again about oxy advantages above ms, talked about in house use

PPLPMDL080000001	Cleveland	OH	44195	1/3/2002	Doc has to testify, his words, about rixing oxycontin for a medicaid pt. He mentioned that it was tid dose and I reinforced the q12 efficacy. We also discussed the pill count, since this was a medicaid pt. But it seemed like he had to justify tid dosing. I gave him titration guide and explained that we have no clinical support for anything other than q12! Said he wrote tid because 12 hour was not holding. Next, find out if tabs were right, could be locking self out. titration guide.

PPLPMDL080000001	Lakewood	OH	44107	1/3/2002	Spoke with Dr. Ramos about the importance of writing a straight order for LTC pts. Explained that when PRN orders are written for chronic pain, the residents usually don't get it, and many times it is the nurses who are not giving the meds as it puts the decision in their hands. He agreed. He said he has seen this happen. I explained that Oxycontin is the solution as when he writes it, it is written q12h, not PRN and only has to be given twice a day. I left him the study on Pain in the Institutionalized Elderly. We discussed the pre-printed script pads. He already has them. I left him some Senokot-S samples and also will get Uniphyl sent to him. Told him to dose talked about use in chronic pain, says that he is still using oxy 40mg as his high dose, is going to oxy after perco and more than 6 per day, indication quick reference to indication for oxyC bad timing come back later focus on Stones- kidney & gaul

She asked me to discuss 3 pts. who are in pain with the nurses. Discussed 2 of them with Susan. One is a pt. of Dr. Sheth whi is getting Vicodin 1 q6h and is in pain. Dr. likes to go to Ultracet next. He will try that 1 t.i.d. with Vicodin 1 q6h prn. I told Susan to watch pt. for a few days to make sure that pain is controlled. If not, ask to convert to Oxycontin 1 10mg q12h. Other pt. is Dr. Sundaram's and is on Oxycontin 20mg q12h with oxycodone 5 mg q6h prn for breakthrough. Seems to be doing well. Last pt. is from Dr. Pannu and is on Darvocet N-100 taking 1 q6h. Told nurse to aks to convert to 1 10mg q12h Oxycontin. She said Dr. will be in today and she will ask. Will follow-up on all these pts. on Jan 15 and 17th during in-service. Tim, their consultant from Lo Med went to Toledo. New consultant is Clarice, from Lo Med.

	Cleveland	OH	44106	1/11/2002	Laura manages palliative care for Ireland- Mainly for Levitan, Dowlati, Bokar, and ?. find out who else does this with her. She had asked about Oxycontin and MsContin comparisons. We talked about the active metabolites in morphine, potentially more side effects, and older delivery system being monophasic v biphasic oxycontin. She agreed that she has noticed less side effects with oxycodone. Then we talked about the fentanyl patch. Mainly about how much easier and flexible it is to titrate with oxycontin. We discussed the titration guide, 2/3 rule, because she would give a 20 mg tab instead of 2 10's and then have to go q8 if pt. called and was not controlled.

PPLPMDL080000001	Parma	OH	44134	1/16/2002	Met with Robin on the second floor. She has many pts. on Oxycontin as she deems them appropriate. She just informed me that she converted a pt. from Duragesic to Oxycontin and is titrating a pt. from 20mg q12h to 40mg q12h. She is a believer in the benefits of Oxycontin and tells me her all her pts. are doing better on it than they were previously. The titration is done for the pts. who do not seem to be getting good enough pain relief.

PPLPMDL080000001	Beachwood	OH	44122	1/16/2002	Talked to Pam about titration guides and time principles. She claims that docs have no problems titrating. They are mainly q12 dosing. They generally go to LA after dose finding with percocet. Discussed the indication being mod to sev atc pain, and tying into time, discussed using oxycontin earlier in pain mgmt so pts get benefits earlier. She agreed. Left new conversion charts and cme tapes for docs and nurses. She was not sure about senokot samples, will let me know. Karla going to cancel in couple of weeks. Next call- find out what nurses role with managing pts pain. what info she would need? check on opps to start mod pts with oxycontin. find out best venue to meet with them where they have time.

PPLPMDL0080000001	Cleveland	OH	44111	1/22/2002	doc says he is writing. asked what changed, and he said he had some trustworthy pts and they needed it. Asked him what he meant by that. they had mod/sev atc pain. Told him that's all we've been trying to say! He will not write for pts who have short term pain. I told him that if he felt someone will benefit from long acting then go with oxycontin. We discussed the benefits of easy dosing, better sleep and on apap. He agreed. I explicitly told him not to write for mild pain, because he was talking about ankle sprains. I just told him if someone is going to be on vico or perco for a long time and the pain interferes with sleep, consider oxycontin. I also gave him the joint DEA statement and noted that they explicitly stated that they are not going after doctors just because the doc rx's oxycontin and that they do not want docs to stop rxing oxycontin. They just want docs to be diligent about preventing diversion. Reminded doc about tamper resist rx's that we got him. Also left him titration guide. he said he will not hesitate to titrate if pt is not controlled. Next- find out what pt types he thinks are oxy
PPLPMDL0080000001	Parma	OH	44129	1/22/2002	is using uniphyl, discussed dose dump of theo chron adn generic status, bld vs qd dosing. is using oxy, but limited compared to duragesic he feels dura is less abuse potential
PPLPMDL0080000001	Solon	OH	44139	1/22/2002	Next call: show her the bioavailability being higher than morphine and forms to fill out tamper resistant pads. She was happy to get the tamper resistant pads. She clearlyh communicates that if a patient is going to be long term management of opioids then she sends them to pain management Mark Allen. She generally starts patients on SA peccot or IR morphine and if they need LA she converts to LA Morphine or Oxycontin respective of what SA agent they were on. I showed her bioavailability and the onset of action for oxycontin showing that it may be advantageous t patient with more continuous fluctuating pain she agreed.

PPLPMDL080000001	Parma	OH	44129	1/22/2002	doc really concerned about xing higher than 40 mg anymore since he had a guy who died. He has all pts signing waivers that they understand this drug can kill them. Doc finally admitted the pt took 20 80mg tabs at one time. So problem was not drug, but pt misused it! So pt ed important to follow doc instructions. He likes to go up to 40 oxy, then he'll add kadian, then if pt still not controlled, he'll rx vicodin. I explained that person who wanted buzz could conceivably abuse all three at one time and still die of overdose! He thought that was a good point. We also discussed avoiding poly pharmacy, especially with opioids. Find resource that supports more than one opiod does not improve pain relief. Even if doc does have an addict, he does not feel they should get a death sentence, so real important to him to inform them of possibility of death from opiods. Showed him titration chart and asked if he thought FDA would approve those high doses if they did not want docs ringing it that high. Also, explained that the polypharmacy makes it difficult for pts to comply and for doc to manage side

PPLPMDL0080000001	Warrensville Hts	OH	44122	1/23/2002	early am at richmond great time to catch. gave doc new titration guide and discussed q12n dosing. He says he does use this as a tool. He said he is doing more. asked where he found he was going to q8, mainly because he would rx 20 mg for pt with single tab, and would not want to double up if pt not controlled, so go q8. Explained that guide shows that 20 mg should be rx'd as 2 10mg tabs so can just add one more. He agreed that he would do that. Said that utracet is having parrran speak at cavs game! So missed that opportunity. We discussed duragesic, and basically came down to if doc is not sure about pt, he will not give oxy, so tends to go to dura. Mainly situation is when pt asks for oxycontin. But most times, he does rx oxycontin because easier to manage than patch. He goes to long acting if pt on 8 day. Next call- discuss mod pain pts with atc pain.

	Mayfield Village	OH	44143	1/25/2002	he's been using more duragesic lately and his data shows it. He has had a few patients who's family members have been frightened by the negative press that insisted that he take their parent off of oxycontin. He agrees with me that it's a knee jerk reaction and that most of his patients are doing quite well and are upset with the negative attention brought to oxycontin. PPLPMDL0800000001	Parma	OH	44129	1/25/2002	doc says he has not rx'd oxycontin, fell back into habits of perco habit. Understood how that could happen, but explained to him that oxycontin is oxycodone, like perco, but last 12h ours. He could not remember dose- explained 20 mg 12qh for post hysterics who have atc mod/sev pain. He said he has two on Mon that he will try it again.
PPLPMDL0800000001	Akron	OH	44333	1/25/2002	The first time he wrote OxyContin was for the duration of action, q12h dosing and it was for post op rehab patients. He has started three new patients on OxyContin, all are chronic and were on either vicodin or percocet. One lady has degenerative disc disease and taking 20mg q12h. He has used OxyContin q8h but we discussed OxyContin per PI and he is only using q12h. Using more OxyContin because he says now that OxyContin is more efficacious for his patients.
PPLPMDL0800000001	Garfield Hts.	OH	44125	1/25/2002	talked with angle adn she is filling mostly all oxy rx's except for a few questionnaire ones, and knows mostly all the docds who are writing them. is comfortable with tid and q 12h dosing, says has been a few questionable pts, is filling lots of uniphyl 400 adn 600, left ce's and discussed senokot formulary status and edicaid coverage of product
PPLPMDL0800000001	Barberton	OH	44203	1/28/2002	after long discussion md states he is offering kadian first choice if the pt accepts the med for tx of around the clock mod-sev pain he will keep the pt on the med for 2 to 3 months and then switch them over to oxycontin for he believes it is the best. This is mds way of catching and preventing diversion. The diverters that come in his office will not accept the kadian they want oxycontin right off the bat. again states that oxycontin is the best med cleanest med etc. etc. asked again what % is leg pain pts he was silent i said 80% he was floored and said way more than that-- i followed up with then i would expect that the pts that fit the indication for oxy in that 80 plus percent would be on oxycontin... he laughed and said i trapped him md does desire to get area pain docs together and discuss how each one is dealing with diversion in their practice-- signed forms for simi today Chiro: shared that ryan in pharmacy stated that if he wanted chiro they would get it in for him which he want the less cns and cardiac risk he will call gave him a spiral file card and will f/u

PPLPMDL0080000001	Cleveland	OH	44111	1/28/2002	Dr. Spiro generally starts oxycontin for pts. who fit the indication, if nsoids and t3's do not work. His nurse, Sally, confirmed that. Only thing is he says once he hits 80 mg q12h, the constipation becomes prohibitive, so then he goes to the patch, because bowel protocol becomes too much. Constipation is the only limiting factor. He will titrate oxycontin up if the pt takes more than a couple of breakthroughs a day. Efficacy for all cancer pain satisfactory. Next call: Probe around constipation after conversion to patch. Should not be that much different, how is pain control, breakthrough? Is the switch or the bowel protocol. Dr. Daw - Able to give him a conversion guide. Asked me to talk with his nurse, Cathy, since he was so behind. She assesses and makes suggestions. Dr. Chaudry- Lots of talk about pakistan. doc does generally start pts with long acting meds to avoid so many doses a day if pain is ATC. He said he did continue a duragesic patch that a rheumatologist. Marilyn is nurse who manages in house pts. She sounds like duragesic is her preferred long acting. we discussed the convenience of q12 dosing and flexibility. Even she acknowledged that she uses assymmetric dosing to customize therapy for patients needs. We discussed managing breakthrough pain on duragesic could defeat benefits of patch. But she insisted that patch was good for poorly compliant pts. We discussed pts with more than one patch. Cathy in chemo

	Barberton	OH	44203	1/29/2002	She had a pt change a flexiril script to OxyContin 80mg and one other pt. We set her up with tamper resistant prescription pads to help with this issue. She just put a hospice pt on 40mg q12h. She is going to use for chronic pain, back after they are taking 4 vicodin and being compliant. Maybe need to talk about opioid naive patients to get her feedback. She did put a pt on 10mg q12h for disc diseases. Went over assessment tools and documentation. Uniphyl, 400mg for COPD lady with nocturnal exacerbations. Senokot-s.
PPLPMDL0080000001	Barberton	OH	44203	1/30/2002	Not going to use OxyContin for fear of abuse and diversion by his patients, said Oxy is too addicting. Uniphyl compared to generic theos.
PPLPMDL0080000001	Independence	OH	44131	1/30/2002	doc came to program for Nurses. He did say the nurses do carry a lot of weight at hospital and they should feel free to make suggestions to physicians. He did say he has a problem with putting chronic non malign pts on opiates. He said it was not addiction, but just did not like the idea. He would support oxy for post op orders.
PPLPMDL0080000001	Parma	OH	44129	1/30/2002	again doc too busy to see. gave small conversion guide, sunshine reprint and card. told his wife I would like to set appt, but she always says show up at end of day. No better in Twinsburg.
PPLPMDL0080000001	Cleveland	OH	44109	1/30/2002	talked about oxy and post op, he says that the biggest issue is that pts ask why oxy, he explains that it is ok, oxy indication per pi

PPLPMDL0080000001	Akron	OH	44320	1/30/2002	Asked Dr. why she is not using very much theophylline anymore. She did not have a good answer. She said that she is still using Uniphyl and still uses some theophylline. I need to find out what she is trying to get out of COPD pts. when she prescribes medications. What is her goal of therapy
PPLPMDL0080000001	Cleveland	OH	44109	1/30/2002	Doc wants help setting up pain pump program. All hand and plastic surg going to outpt center and he is going to do pain pumps out there too. Wants levo for pumps, but needs help with baxter and stryker to get going. Also, braun is going to bring some big name doc on continuous ambulatory anesthesia for preceptor ship and may need some funds to help. told him how to apply for grant.
PPLPMDL0080000001	Akron	OH	44333	1/30/2002	He had a patient come in taking 42 percocet(7.5) in 3 days, when assessed and asked about pain he said it was nerve pain and hurt all over. Discussed the pt and he only gave him neurontin. Discussed converting pt with a bad back and needing a vicodin refill. He is taking one every 4 hours, discussed conversion per OxyContin PI
PPLPMDL0080000001	Cuayhoga Falls	OH	44223	1/30/2002	Met with Dr. Mader. He informed me that he likes to use Duregesic because the pts. are at least getting something. I explained the add-on strategy of adding Oxycontin to the existing PRN meds and therefore not having to go to a whole new med. He said that he would use more of the Oxycontin. I also discussed Uniphyl. He like the idea of it being once-a-day.
PPLPMDL0080000001	Parma	OH	44129	1/30/2002	shared with doc the concerns of the pham in the area. 1, that they do not see doc using non-opiates, but doc said pts have already been on by time they get to him, so he goes to opiates. The other concern was pts coming from youngstown to get rx's here. Doc did say he was only writing out of parma because of problems in lorain and bordman. So I gabe Mary Walgreen's number and suggested they establish a relationship with the pharmacy so they could work together to flush out bad apples.

PPLPMDL0080000001	Twinsburg	OH	44087	2/4/2002	Discussed Oxycontin with the pharmacists. There was some discussion about the changes in medicaid having an effect on the usage. Tracy said that usage has gone doen and that it appeared to have gone to Duragesic. She did say that it appears lately that it may be coming back. The pharmacist are in favor of using Oxycontin, and they do recommend it. We discussed the add on strategy as a way to not be as threatening to the physicians. They don't have to start over, they can just add it on. We also discussed Uniphyl. They said they are not seeing much theophylline usage. I tried to explain the benefits of adding on Uniphyl. It will take more work. They are using generic Senokot-S.

PPLPMDL0080000001	Barberton	OH	44203	2/4/2002	Starting pts that need atc pain control on 10mg q12h for 30 days, if need longer will send to pain management. Uniphyl, has seen pts on BID theo, he has not started any new pts on theo, so hit generic vs uniphyl issue and said if problems will convert to Uniphyl.

PPLPMDL080000001	Cleveland	OH	44195	2/4/2002	hit indication and differences to combos talked about Q12 dosing and cases next id appropriate candidate remind q12
PPLPMDL080000001	Barberton	OH	44203	2/4/2002	Just put a medicaid pt with a bad back on 20mg q12h gave 30 day supply and he is sending him to pain management
PPLPMDL080000001	Akron	OH	44333	2/5/2002	His underlying issue has been being held more accountable for writing OxyContin than other pain medications. I went over the DEA release and told him that it is all in the patient selection process in order to avoid the diverter or abuser. He has a case PIP arthroplasty of right radius going to use OxyContin
PPLPMDL080000001	Akron	OH	44333	2/5/2002	using for chronic failed back pain, he does have concern over the abuse and diversion that he is hearing, also some pharmacies are not carrying it.
PPLPMDL080000001	Akron	OH	44333	2/5/2002	Accountability is the issue with Dr Steurer, if OxyContin ends up in the wrong hands then he will be scrutinized more. I showed him the DEA statement release and discussed the proper pt selection, documentation, went over the Intractable pain law that will help him follow guidelines to avoid the abuser or diverter and still allow OxyContin to give the best pain control for his chronic back pain patients. Dosing and conversions from vicodin were all discussed per the OXY PI.
PPLPMDL080000001	Cleveland	OH	44106	2/5/2002	claims his pop doesn't need pain meds probed for Perc/Vicodin says once in while may need 1-2 post keep working atc analgesia message
PPLPMDL080000001	Euclid	OH	44119	2/5/2002	Didn't need samples, able to convert theo-dur and uni-dur patients to uniphyl. continued to use as a last resort for ill patients.
PPLPMDL080000001	Cleveland	OH	44195	2/5/2002	talked in resident room showe the conversion chart and focused on the appropriate candidate sees used alot for joint cases atc analgesia message
PPLPMDL080000001	Cleveland	OH	44117	2/5/2002	Discussed the DEA and Joint health care Org. position statement. He feels that the answer is clear drugs do not cause addiction it's the person. he's been treating himself and is on H2O2 and Lasik when he has difficulty breathing. His main concern with use of opioids is that most health care professionals don't care about patient care they care about covering their ass.
PPLPMDL080000001	Middleburg Hts.	OH	44130	2/5/2002	went over uniphyl vs generic with power graph, gave uniphyl samples. went over conversions of oxy and percocet vs vicodin

PPLPMDL080000001	Middleburg Hts.	OH	44130	2/5/2002	went over appropriate pts selection and surgery cases. his pts have been getting very nauseated, recommended using an antiemetic and laxative, possbly to also look at the surgery cases; possbly not enough pain iwht scoping pts
PPLPMDL080000001	Cleveland	OH	44113	2/5/2002	oxy and post op, says that he ahs not used it lately bc of the need to be on it for 3 to 4 weeks, says that he heard that from another rep, talked about oxy and pi indication, follow up
PPLPMDL080000001	Cleveland	OH	44106	2/5/2002	provided AHCPR Acute pain mgmt post surg bookware of media but redirected him to short exposure and atc message also the press release next id pt. / try Mary Ann Fowler, RN
PPLPMDL080000001	Akron	OH	44333	2/5/2002	He gave OxyContin to a patient that had surgery 2 weeks ago but still experiencing discomfort in her right knee. Most pts are post op knee replacement or hip. Dosing and use discussed per OxyContin PI.
PPLPMDL080000001	Solon	OH	44139	2/5/2002	he didn't want any uniphyl samples doesn't feel he has aneed for it. We discussed oxycotin again and he feels that he can use more judiciously regarding state boards but he doesn't like the type of patients that are attracted to his practice if he uses alot of controled substances. he has about 2 or 3 steady patients that he Rx for but most everybody else he sends out to pain management. I tried redirecting him to focusing on patients he has ha history with and has watched them deteriorate over time these would be good trust worthy patients
PPLPMDL080000001	Cleveland	OH	44113	2/5/2002	surgery lounge, oxy and post op for cases needing more than one week of therapy, talked about using the 10mg dose, oxy pi
PPLPMDL080000001	Cleveland	OH	44195	2/5/2002	His pop 1/10 pts. will ask for refill after 1 week of opioids hit both products / details of single entity vs. combos for oxyC & Vicodin also the press release in hard copy on joint statement for policy and the add on concept makes sense for continuous pop
PPLPMDL080000001	South Euclid	OH	44121	2/5/2002	hit indication through window sec. is useless. Kim, RN set up lunch need to get the Rx order form back and work on pharmacies that won't fill rx's outside of my territory
PPLPMDL080000001	Cleveland	OH	44113	2/5/2002	post op, still using oxy in totals, talked a bout using 10mg dose in lesser cases that need atc pain relief, says he has used before in shoulder cases, but only need for a few days, oxy indication per pi
PPLPMDL080000001	Middleburg Hts.	OH	44130	2/5/2002	met with Brian, got the feel he does not use many opiates to treat pain he treats shorter pain incidents and then will refer them to pain mgmt clinics. He uses vicodin for prn pain if going to be using longer he will either switch to single entity or refer out. doesn't use many theophyllines r/ old product and uses many of the newer singular and accolate, went over oxy pi and uniphyl pi and copd and asthma road map showing use of uniphyl at steps 3 and 4 on ats and nhlib left senokot
PPLPMDL080000001	Akron	OH	44314	2/5/2002	Discussed the add on approach. She has two new pts on OxyContin, both for chronic back pain, 20mg q12h as per Oxy PI. Gave her the DEA statement and the Ohio State Intractable Pain Law. Uniphyl, no new pts on theo, if that severe sending to the pulm. Senokot-s for chronic pain pts. She is writing OxyContin for its efficacy and duration of action.
PPLPMDL080000001	Cleveland	OH	44113	2/5/2002	followed up to add on tx, has not used it in that way yet, talked about pts coming in who would fit, said he had oa pt coming in soon, will try, uni and copd

PPLPMDL080000001	Middleburg Hts.	OH	44130	2/5/2002	met with rogers for first time, very nice and personable, he is using oxy to treat chronic pain, phantom pain, post op pain for vascular sx. wanted the ted parron syllabus so i retrieved one from Stephanie. Dr Rogers has a solid understanding on pain mgmt wen discussed the conversions and titration percentages as well as tapering off of oxy while taking off oxy. gave senokot samples for drug induced constipation pts
PPLPMDL080000001	S Euclid	OH	44121	2/5/2002	hit the single entity & titration points and reminded of skt line close for new start
PPLPMDL080000001	Cleveland	OH	44195	2/5/2002	probed for changes in his perception - did not feel has changed. showed the CD rom and he mentioned the new one direct mailed from Purdue next titration Q12 acroctin
PPLPMDL080000001	Akron	OH	44310	2/5/2002	Sleep thru the night, Q12hr, assymetric dosing, around the clock dosing. increase dose if morre than 2 breakthru's are administered in 24 hours. Oxycodone 1 vs Hydrocodone .9 Uniphyl
PPLPMDL080000001	Mayfield Heights	OH	44124	2/5/2002	add on therapy with oxycotin, he doesn't feel that add on therapy will work woth patients that have been on SA for a long time he feels that they will ultimately just be taking two durgs instead of one. He did however, state that he hasn't tried it yet and would considr it for a couple of his patients. We also discussed tid dosing and his biggest problem is when a patient comes to him already on a tid dosing schedule he finds it very difficult to get them back to Q-12 he feels their probably is some euphoria the person gets and they don't want to give it up. I showed him a graph of thrapeutic window which establishe pain relief, side effects and sub optimal pain relief. He agreed with the demonstration that increasing the dose will keep the patient in the therapeutic window for a longer interval helping to maintain q-12. he will try itwith a patient htat is on tid
PPLPMDL080000001	Cleveland	OH	44195	2/6/2002	hit both and gave the Cole reprint on recognizing diversion
PPLPMDL080000001	Euclid	OH	44119	2/6/2002	add on therapy. She is mxtly treating post-op pain and patients are taking prn percocet when she gets them she has no problem giving oxycotin if patients are experiencing more continuous pain. she would simply start the patients on oxycotin and give them BT as needed
PPLPMDL080000001	Beachwood	OH	44122	2/6/2002	oxy, says he is increasing his use now bc it seems to give better pain relief for his post op pts, talked about using the 10s and using multiple pills, oxy pi
PPLPMDL080000001	Cleveland	OH	44106	2/6/2002	hit product indication and talked about setting up a lunch need to focus on PI indication for post surg
PPLPMDL080000001	Euclid	OH	44119	2/6/2002	add on therapy, he has no problem with add on therapy however he felt he would be more aggressive with 30mg q-12 if patients were taking percocet on a more continuous basis. Bad news he's no longer doing out patient therapy and is sending his chronic pain patients to other pain management specialists. he would like a list of other docs that are not afraid of using opioids
PPLPMDL080000001	Beachwood	OH	44122	2/6/2002	post op use, says that he is now only using in total cases, talked about add on tx for his chronic pain pts, seemed to make an impact on him, went thru process, oxy pi
PPLPMDL080000001	Cleveland Hts.	OH	44118	2/6/2002	hit all products detailed Zuwalick study around clock message for oxyC need to get the CD rom in front of him and news releases
PPLPMDL080000001	Shaker Hts	OH	44122	2/6/2002	talked about oxy as add on tx, he says that he is not writing any long acting now, but is still writing vico, talked about why it could help by adding oxy 10mg and slowly backing other off, oxy pi
PPLPMDL080000001	Barberton	OH	44203	2/6/2002	waited for md almost 45 min shared with nurse sue that i would e-mail md what she needs to put in the form of a letter for a grant request and that's just for purdue to look at the possibility it is no guarantee Mitsz RN stated that she didn't need to hear about oxycotin they write tons just need senokot
PPLPMDL080000001	Cleveland	OH	44195	2/6/2002	hit the E. Cole reprint reminded of documentation next any new starts how often?

	Akron	OH	44307	2/6/2002	Julie is much more negative regarding oxycontin then md. She ctds to say they are not writing as much as they used to i refocused her to the indication and if the pt was appropriate would she write it then she said yes was surprised to find out bressi was still writing so much shared with her that all of the mds that i call on from warren to mansfield are writing oxycontin shared dea consensus statement which hse had already read POA: ctd to focus her on the appropriate pain pts and the benefits of oxycontin
PPLPMDL0080000001	Shaker Hts	OH	44122	2/6/2002	talked about oxy as add on tx with pts in practice with chronic pain and are on sa agents, he says that hew will try that for a pt that has severe osteoporosis, follow up oxy pi
PPLPMDL0080000001	Beachwood	OH	44122	2/6/2002	in office today, oxy and post op, not much use now, but says will try add on in chronic, follow up
PPLPMDL0080000001	Beachwood	OH	44122	2/6/2002	talked about add on tx, he says that it makes sense to him, bc he says that alot of pts think they need darvo or percoc, says that he feels it will help him get them off sa meds, oxy pi
PPLPMDL0080000001	Warrensville Hts	OH	44122	2/6/2002	talked about oxy and using it in severe pain post op, says he has issues still with oxy, taht is why asked him for severe cases, will use, 10 mg mult, oxy pi
PPLPMDL0080000001	Akron	OH	44333	2/6/2002	His chronic pain pts are starting on the patch for it not being as abuse as OxyContin, also said pts more comfortable getting the patch vs Oxy script.
	Cuyahoga falls	OH	44223	2/6/2002	Dr. Riverra on vacation this week md only covering today 1-5 ??? discussed dea consensus statement and thanked him for his support since he added that none of this media is affecting him mds that write pain meds always need to be careful emphasized that i want to be a valuable resource for him keeping him up to date on what is going on md agreed refocused to pt success story

PPLPMDL0080000001	Gates Mills	OH	44040	2/6/2002	I discussed add on therapy with him he didn't agree or disagree with it. he said i am using oxycontin moxtly in cancer patients. he told me that patients like the convienice of duragesic over pills????
	Akron	OH	44302	2/6/2002	md signed up for tamper proof script forms shared dea consensus statement and pointed out the part of not focusing on the abuse potential of a productfear of writing.....etc etc. md agreed with letter was very positive about oxycontin on this visit he said he wrote 4 new scripts today tuesdays are his nonmalignant pain day asked how he has changed his thoughts since last visit he said it was a bad day and came off too strong ctds to say Purdue is his favorite company and appreciates that we do more for pain mgt than any other company. Asked about the cancer pts and shared that the onc floor stated theya re seeing more ms contin he denies this and said every cancer pt gets oxycontin ... POA: next visit focus on md teaching me how he uses oxycontin and best success' etc etc
PPLPMDL0080000001	Euclid	OH	44119	2/6/2002	He's moving to the ER gorpup out of median in about two weeks all his patients are going to viewleg and viewleg is resistant to giving patients oxycontin. He has about 6 steady oxycontin patients that he's been maintaining
PPLPMDL0080000001	Akron	OH	44333	2/6/2002	A couple of new pts on OxyContin for arthritic pain going to OxyConti after have taken at least 4 vicodin a day. ATC pain control, less pills is draw for docotor to use. DEA statement need to keep showing to dispell any apprehension to writing OxyContin.
PPLPMDL0080000001	Olmsted Twp.	OH	44138	2/6/2002	Dr. Wayne is still using Oxycontin. He told me that whenever he uses a lon-acting opioid, he will use almost exclusively Oxycontin . I left him the JCAHO pain management book. I told him I wanted to contact Linda Navarre. She is staff development for the nursing home. He though that would be ok to do. He was in a hurry as he still had pts. to see.
PPLPMDL0080000001	Euclid	OH	44119	2/6/2002	add on therapy, he said he wrote ascript about 2 weeks ago for oxycontin. he felt that he was already inline with ad on therapy. and that he would also adjunct he patients with antitricyclics if htey had any neuropathic componenet
PPLPMDL0080000001	Akron	OH	44333	2/6/2002	Opioid use of 6 weeks or less, he does not consider to be a chronic condition. A compression fracture falls into this time frame. When asked if would use OxyContin for this condition he said it with hesitation. For these types of pts he views them as taking medications only when needed not ATC. Chronic pain pts need ATC control and these are the ones who need OxyContin.
PPLPMDL0080000001	Uniontown	OH	44685	2/6/2002	talked about OxyContin patient. Less pills and longer duration of action vs vicodin is the main advantage. Continue to show her oxycodone vs hydrocodone equivalence to reinforce her use of OxyContin. She did not talk about any new specific pts. She said she had two new back pain pts on OxyContin. Uniphyl, only type of pt is the chronic bronchitis pt.
PPLPMDL0080000001	Akron	OH	44333	2/6/2002	two new pts converted from percocet to OxyContin for disc disease and low back pain, both got 20mg q12k
PPLPMDL0080000001	Akron	OH	44333	2/6/2002	OxyContin use is for chronic pain from low back to arthritic and fibromyalgia. He is not going to OxyContin for opioid naive pts, these pts have taken vicodin or percocet and are taking 6 or more a day. We discussed conversion per the PI. Latest new pts was converted to 20mg q12h for disc disease and does not want surgery.

PPLPMDL080000001	Akron	OH	44333	2/11/2002	He is more comfortable using OxyContin, said has 4 cases tomorrow to use OxyContin on.
PPLPMDL080000001	Barberton	OH	44203	2/11/2002	he is using alot of generic BID theo.s so I showed him the piece comparing brand name to generic and he said he will switch pts.
PPLPMDL080000001	Middleburg Hts.	OH	44130	2/11/2002	talked with andrea in hallway she says dr sahwny cannot seem to remember oxy....I thought but he does remember others, so how do we get him to remember this? He is going on vacation for a few weeks and need to work on getting literature in his presence and into his pt files that are apropiate candidates per pi for oxy
PPLPMDL080000001	Cleveland	OH	44112	2/11/2002	gave the Pain CD rom & need to get more time to talk about implementing for appropriate pt. selection
PPLPMDL080000001	Akron	OH	44333	2/11/2002	using for evening dose along with vicodin for skin flap removal around the ears. 20mg
PPLPMDL080000001	Akron	OH	44203	2/11/2002	md not receptive to using oxycontin as much as last visit stated because of more negative press in the papers and television refocused to his practice and he brought up the story of the 2 pts that 'became addicts' etc etc
PPLPMDL080000001					POA: ctd to share success stories and ask for the appropriate pts
PPLPMDL080000001	Middleburg Hts.	OH	44130	2/11/2002	talked about uniphyl being no generic and qd in the evening for peak serum levels at nocturnal sx time. left senokot samples and oxy pi and discussed conversions to vic and percocet

PPLPMDL080000001	Cleveland	OH	44109	2/11/2002	talked about using uni in cases where pts coming in more frequently to get new inhaler rx, add 200mg uni, follow up
PPLPMDL080000001	Akron	OH	44310	2/11/2002	Met with Dr. Goswami. He said he is using more Oxycontin in his practice than in the nursing home. He said the inactivity of the residents makes it so they do not hurt as bad. He needs some education on pain in the elderly. He thinks Duragesic is easier to use in the nursing home. I cautioned him on not letting the nurses think that just because they put a patch on somebody, they get 3 days of pain relief. I discussed the ease of using Oxycontin by just adding it in to what they are already on. He said that is what he is doing. We then discussed Uniphyl. He said he uses theophylline about 1% of the time. He said he will use an oral steroid before theophylline. He said there are too many side effects. I focused on lower doses and fewer side effects. He seemed to agree with this, but was still not convinced. Need to show Karpel study next.
PPLPMDL080000001	Garfield Hts	OH	44125	2/11/2002	Doc says he knows of only Richard Parker doing the pain pumps in the area. Orthopod who operates at the ambulatory center. He agrees that they should be utilized more often and that chiro would be appropriate. In house, nothing new on pca or pca front, so need to work with Rothfus on that. Donna does all the stocking and ordering, so need to find out why so volatile and if the ASC purchases through hospital.
PPLPMDL080000001	Middleburg Hts.	OH	44130	2/11/2002	met with keating, says he is using oxy for chronic pain pts, feels he uses alot. would like some uniphyl samples has a few pt on it, told there was not a generic equivalent, he did not want any senokot samples he does not like senna, he feels it is too harsh on the colon and causes diarrhea; I told of our positioning of senokot as the stimulant laxative of choice, for drug induced constipation, for it slow the system including the gi, he still did not want any samples, sees on hit or miss basis
PPLPMDL080000001	Akron	OH	44304	2/11/2002	once a day uniphyl, cricadiam rhythm

PPLPMDL080000001	Mayfield Hts	OH	44124	2/11/2002	focus on total joint patients, he's using motxly in traumatic cases and injuries not using enough in total joints uses SA like vicodin or percocet. He did talk of using pumps in shoulders and knees for more continuous pain control. I agreed with him and felt that those type of patients would be good for oxycontin because of theri more constatin pain needs.
PPLPMDL080000001	Akron	OH	44333	2/11/2002	she is just getting back from having neck surgery, limited surgery schedule, she said will use on bigger cases that have bone involvement.

PPLPMDL0080000001	Parma	OH	44129	2/13/2002	Informed doc that pharmacies are not filling rx's because he rx' did. I begged him to write percocet and NOT OxyContin if he is going to rx four times or even three times a day! He realized how serious this was especially after I explained that this hurts his patients because they can't get their meds and it hurt doc's rep because pharm's start gossiping. His problem is he very leary of titration; He is starting a pt at 10 mg q12. If pt still has pain, He thinks it too big an daily increase (going from 20/day to 40/day. He is more comfortable with going to 30/day, then if necessary to 40 mg. To do this, he stays with the 10 mg tab, but doses it tid, then qid. AND THATS IT. If pt still has pain, he starts adding percocet, because he is not comfortable with going higher with oxycontin. I tried to explain that he is bascially titrating up to 60mg a day! But we have to start with baby steps. We closed agreeing that however he rx's it will be q12h. But he only going to increase 10 mg at a time. NEED TO REALLY PULL THROUGH WITH STAFF< CALL BOARDMAN NURSE>. He had a pt there who said he had to detox himself from oxycontin. when I asked why, he said his son saw all the media hype. We discussed it and he realized he overreacted.

PPLPMDL0080000001	Akron	OH	44333	2/13/2002	He is using for more severe cases where he will have the patients take OxyContin q12h with percocet or vicodin for incident pain. I showed him the conversion factors because he is either using percocet or vicodin for other cases, so reserving after short acting cases. Has a hammer toe procedure on 4 of the metatarsals and said would use 20mg q12h.
PPLPMDL0080000001	Akron	OH	44333	2/13/2002	One new pt that is a failed back from Dr Miller and was taking percocet, converted to 20mg q12h.
PPLPMDL0080000001	Akron	OH	44333	2/13/2002	He is using on his acl repairs, the pts are not getting control on vicodin so he is using OxyContin 1-2 10mg tabs q12h with vicodin on prn basis.
PPLPMDL0080000001	Akron	OH	44314	2/13/2002	He said he tried to send an elderly lady with a compression fracture home from the hospital on 20mg q12h and she was afraid of getting the script and becoming addicted. he said the stigma is a concern. I showed him the difference in th number of pills and conversion factors from vicodin and percocet to OxyContin as per PI. Talked about educating these pts, need to bring in common mydts of opioids. Not using theo, said if that severe send to pulm.
PPLPMDL0080000001	Akron	OH	44312	2/14/2002	He is seeing most of the inpatients at Edwin Shaw, said using 10mg q12h in the hospital but not as comfortable with sending them out of the hospital on it. Abuse and diversion is an issue and patients are not as comfortable taking it or going to the pharmacy and getting it.
PPLPMDL0080000001	Solon	OH	44139	2/14/2002	She didn't get her tamper script pads yet they faxed tehml in late. I asked her if she had any patients taking SA morphine or percocet on ascheduled basis and if they would benefit from conversion to oxycontin. She said if their on morphine she likes to keep themon morphine if percocet then she'll go to oxycontin.
PPLPMDL0080000001	Cleveland	OH	44109	2/14/2002	in pmr clinic, pt today on oxy 20mg that need more medication, niot giving any bt meds, started oxy ir for bt, tiration per oxy pi
PPLPMDL0080000001	Mayfield Heights	OH	44124	2/14/2002	how high of a dose does he consider to high? he feels that theophyllines are more effective at a higher dose of 15-20mcg/ml but he says then you get to many side effects. he is using uniphyl and theophillines in general just no as much as he use to.
PPLPMDL0080000001	Cleveland	OH	44113	2/14/2002	pm surgery, talked about oxy and using it [post op, 10mg dose, has written but only in total knee once, oxy pi

PPLPMDL0080000001	Tallmadge	OH	44278	2/14/2002	dr rimedio is not comfortable using any c2's and doesn't generally prescribe opiates, he will either prescribe "weak" opiats as c3's or darvocet for chronic pain pts or will refer them out to pain mgmt. He "loves" theophyllines and is concerned about cost and having pts get assess to it in the pharmacy, he doesn't was to be called by the rx for substitutions I assured him that rx are stocking and powergraph and he said he will write it and that he will call me if there is a problem at the pharmacy level. discussed senokot and constipation is detail. Cost of meds seems to be a very large concern of his and he even sends his pts to canada for rx drugs at a significant cost reduction. he uses duragesic for chronic pain he felt it cannot be abused.
PPLPMDL0080000001	Tallmadge	OH	44278	2/14/2002	does not feel comfortable with oxy at any level, he does not write opiates for pain, he immediately refers out. he does an extensive assessment on pain pts and even documents and has pt sign his chart as a pt agreement if he is to continue pain meds. he isn't comfortable with theophylline and uses inhalers (patroprilum, then to steroids then uses theo as a last resort we discussed b ringing in theo at a low dose and leaving everything else the same adn he said he will read up on it and consider. discussed the difference between senokot and metamucil. he had a pt young girl who took oxy at a party adn died, that made him very uncomfortable with oxycontin. he currently has a pt that said a friend gave himn 80mg adn they "washed" the delivery off it and now he cannot get off the product. he is "addicted" and so dr schmeiser is weining the pt down with 10mg right now.

PPLPMDL0080000001	Barberton	OH	44203	2/15/2002	81lb lady taking 3 100umg patches. He is using OxyContin for more of acute or subacute situation and the patch for chronic pain. He has never seen a patch rep yet. We stated talking about and elderly lady weighing 81lbs with arthritic pain and fibromyalgia taking 3 100umg patches and he said she is doing well. I referred to the patch PI where it said in the black box warning about any pt under 110 lbs should not take it. He was suprised, but said needed to find out more about the reasoning? We talked about converting her to OxyContin, but he is not quite ready. New Uniphyl, pt converted from generic BID theo to 400mg qd, lady with COPD.

PPLPMDL080000001	Independence	OH	44131	2/19/2002	doc here on tues and thurs now. Veronica and June, Jill are key nurses here. June is OCN and Veronica works on onc floor at Akron General, deals a lot with sicklers. doc says he does offer pts option of patch or pill. most like the idea of patch, but not effective for everyone and he acknowledged that it is costly. He says most pts do well by the time they get up to 40 q12. We discussed higher dose pts and their excellent functionality. Veronica asked about q8 dosing and why it is not recommended. So we compared mscontin to oxycontin and discussed the q8-12 v true q12. We also reviewed titration chart and explained how important that when initiating you use the right pill mix so titration is easier. They titrate if pt has brkthru more than twice a day. Also discussed that compared to transdermal you get analgesia in about an hour, you can titrate the next day and doses can be assymetric to customize to the pts pain. June asked about IPAP. It took her awhile to get a pt signed up because she went through website. Told her to call me, I will drop off form. Left oxy pt ed and partner/pain piece for pts. She said family members usually like this stuff. Also gave her the tear off assessment pad. Being CCF, she did not think they would be allow to use it, but will give to nurse manager to see if can integrate idea to

PPLPMDL0080000001	Akron	OH	44319	2/21/2002	He did ask about the Florida physician found guilty of manslaughter for 4 pts overdosing on OxyContin. This information was showing up on his pager where he has MD news coming across it. I responded by asking if he read any specifics about it and he said no. I then showed him the DEA statement and the intractable pain law to show proper steps to proper prescribing of opioids. He has a couple of COPD pts on Severevent who can get better pulm control, went over ZuWallack study and he is open to the idea of adding on Uniphyl. Senokot-s New OxyContin pt taking 20mg q12h for bad back, she has taken NSAIDS and codeine before.
PPLPMDL0080000001	Akron	OH	44319	2/21/2002	He has used OxyContin on one new pt with severe arthritic pain, 20mg q12h. He also wanted tamper resistant script pads. Uniphyl, ZUWallack.
PPLPMDL0080000001	Euclid	OH	44117	2/22/2002	add on therapy. He is somewhat weary of using add on therapy because he feels that giving a patient both LA and SA is going to draw attention to him via pharmacy. He understands that BT is a legitimate part of pain management but he feels that someone taking SA more than 4 in a day can be converted to oxycontin or a LA agent. He remains solid with his stance on oxycontin and abuse a diversion and feels he's rxing safe and
PPLPMDL0080000001	Akron	OH	44333	2/22/2002	He has a couple of patients taking Uni-Dur and we talked about it going generic, I showed him the piece about generic theo's and he said he will convert these couple of pts to Uniphyl.

PPLPMDL0080000001	Beachwood	OH	44122	2/22/2002	Dr. said he is using Oxycontin. He is comfortable using it. He said he is using it in place of CII's after NSAID's. He said he is using it more in out-pt. than in the nursing home. The media has not deterred him from doing what he thinks is right. He seems to think that his nursing home pts. are not "suffering" as b ad as his office pts. He is not convinced on Uniphyl. Aked him to try as third line therapy for his COPD pts. not doing well on ipratropium and B-2 agonists. He said he would use theophylline before a steroid.
PPLPMDL0080000001	Cleveland	OH	44109	2/22/2002	talked about pt that he just put on oxy, chronic pt that came to him from dp doctor, talked about using the 10mg dose as add on earlier in tx when indicated, oxy per pi

CCF does not allow samples anymore; they are moving to a pixus station in which reps must pay to have their samples stocked in the biggest oxy writer in this ccf bldg are the ortho guys (kepler, chickendence, vangelos; all horizon guys and residents, dr grimm, oncology This pharmacy utilizes the premier contract and buys through cardinal and has their own formulary potentially not the same as main campus. Is only stocking generic theophylline, only has 2 pts on and they dont even fill rx there often, is NOT carrying branded senokot, this pharmacy carries leader brand; a brand manufactured by cardinal, there wholesaler. He did however take samples to place in bags of opiate scripts
PPLPMDL0080000001	Mayfield Village	OH	44143	2/22/2002	Bill said that Oxycontin is doing well. He said that Western Reserve is still using a lot of Oxycontin when morphine is not working or they cannot take it. They are also using in larger doses. Bill is the only pharmacist. I asked him if there was a pattern to his buying. He said they buy when they need it. No set pattern. I gave him some CE on pain management and also some do not crush stickers.

PPLPMDL080000001	Uniontown	OH	44685	2/22/2002	He said he has not changed his prescribing habits, using for chronic arthritic pain, he does allow his patients to take alot of vicodin first, some up to 8 a day before going to OxyContin. Patients that want to stay on vicodin stay on it, which some say OxyContin does not work.
PPLPMDL080000001	Euclid	OH	44119	2/22/2002	bullet points, said he started another patient on oxycontin 10mg q-12 that was taking vicodin. He said he always starts at 10mg? I said what if the patient is taking 8 vicodin a day then their going to be undermedicated. I showed him hte conversion of 1-1 with oxycontin and vicodin. He made up the excuse that he would rather try to get away with less medication instead of starting them off at a high dose. He does not process the fact that oxycontin is no more potent than vicodin and his rx practices show it.
PPLPMDL080000001	Uniontown	OH	44685	2/22/2002	two new low back pain pts from vicodin to OxyContin 20mg q12h per Oxy PI.
PPLPMDL080000001	Uniontown	OH	44685	2/22/2002	He is using 10mg and 20mg q12h for low back pain, converting from vicodin to OxyContin. If will not switch to OxyContin and say vicodin is the only thing that works he will tell them to go to a pain clinic or get a new doctor. I went over the ZuWallack study, he has not started any new patients on theo, too many problems, example that he used is if his pts go to the ER and get cipro or levaquin become toxic on theo. He did not have any pts in mind but says has pts on Serevent.

PPLPMDL080000001	Akron	OH	44333	2/25/2002	two new pts on OxyContin for chronic condition, one is for diabetic neuropathy, 20mg q12h.
PPLPMDL080000001	North Olmsted	OH	44070	2/25/2002	great callhe is comfortable using OxyContin for nonmalignant and malignant. he knows it works better for chronic pain than short acting because of the blood levels that are maintained with oxyContin q12. he liked the infor on theophylline working together with inhalers to get a synergistic effect
PPLPMDL080000001	North Olmstead	OH	44070	2/25/2002	Went on this call with Jeff. We discussed Drs. use of Oxycontin in the office and in the nursing home. He said he uses Duragesic and when asked why he said for pts. that cannot swallow. We showed that 2 CIII's equivalent to 10mg Oxycontin q12h. We used Vicodin as example. Dr. said he feels need to get pts. out of pain, and he does use some, but is hesitant. Also discussed Uniphyl. Said not using that much. Showed him the circle model. Dr. said it amd sense, but by this time was leaving to get a phone call. He is medical director at Berea Quality care and has about 70 nursing home pts. in various facilities.
PPLPMDL080000001	Akron	OH	44333	2/26/2002	WE discussed the documentation and assessment, took a CD rOm and is going to have all patients sign an opioid agreement contract. She is using OxyContin for her chronic arthritic pain and back pain along with cancer pain
PPLPMDL080000001	Warrensville Hts	OH	44122	2/26/2002	Selecting the appropriate patient. She was having trouble with our IPAP program and getting an answer on the pt. The patient is taking 80mg q12h and will titrate up from there. Discussed Uniphyl and she has a patient taking Severe and not getting adequate pul function so going to start her on 400mg qd of uniphyl. ZuWallack study.
PPLPMDL080000001	Akron	OH	44333	2/26/2002	allen, said he rxing for new pts. just spreading it around now. need to go for kadian and dura failures.
PPLPMDL080000001	Akron	OH	44333	2/26/2002	His first response was that he will never use OxyContin b/c the patients can melt it down and inject it. I asked if that was a big concern with his pain pts, b/c if it was he should not write any opioid for this type of pt. I told him the benefits of OxyContin. Documentation kit was given along with him getting the pts to sign an opioid agreement. I went over rthe ZuWallack study but did not show interest but he is using Severe and and add on is a possibility, did agree to take samples.
PPLPMDL080000001	Cleveland	OH	44113	2/26/2002	has not writttenany oxy this week, says that he ahs not had approp pt, talked about when appropo pt comes ion if need pain med added then can add oxy, pi, uni and copd
PPLPMDL080000001	Akron	OH	44333	2/26/2002	He said that patients just do not want OxyContin because of the emedia coverage, one or 2 severe pain patients will take it, but i also think he thinks that the DEA is looking closer at physician, but i showed him the DEA statement. Proper patient selection, I need to find out the specific pt type he has the most concern over.

PPLPMDL0080000001	Garfield Hts.	OH	44125	2/26/2002	met with had lunch and talked about appropriate pt for oxy, he did not feel that the media has influenced his writing and that he is very diligent in screening pt and has caught up with a few drug seekers at times and has dismissed them from his practice. we went over the documentation kit and pt agreement; he really liked it and is going to present it at the business meeting tonight with the other partners. they independently own these med groups. went over uniphyl and qd dosing and nocturnal sx. went in great deal over colon and senokot; i got the impression he knew alot about meisner and aurbachs plexus and their functioning. Over all, great call, felt Dr Singer has a strong understanding to assessing and treating pain.
PPLPMDL0080000001	Akron	OH	44333	2/26/2002	He is very apprehensive to using OxyContin vs vicodin. DEA scrutiny is big concern, he also said ease of refill with vicodin and can call in and not have to write out script and means more documentation. This is the angle I went, he should be documenting everything he does when using an opioid and treating chronic pain. Proper patient selection is the most important before even considering an opioid to treat the pain. No specifics on the type of pts he is using OxyContin on.

Doing more of the outpatient office pain patients, she had a patient taking 120mg of OxyContin a day but then found out that the patient was also getting the patch and percocet from a pain physician. She stopped giving OxyConti to the patient and fired her from the practice for noncompliance.

PPLPMDL0080000001	Strongsville	OH	44149	3/1/2002	Met with Jo DeLuca. She is the regional nurse clinical manager for all 9 Royal Manor Homes. They are privately held homes that go by many different names. I tried to discuss Oxycontin with her but she was more interested in getting information on pain assessment. She wants me to speak with NCS and educate their consultants to make recommendations about pain conversions. Joe believes it is their responsibility to make recommendations to the physicians. I will an in-service for her D.O.N.s in July. She also wants the HCFA materials. I will get them to her.
PPLPMDL0080000001					Gave Pink Books to hospice. Hospice census is still about 15. Nurses are not interested in hearing a laxative in-service. They say they are being asked to give one. Maybe we can do them together using out Senokot slide kit. Will pursue.

PPLPMDL0080000001	Gates Mills	OH	44640	3/8/2002	he says that patients prefer the patch. he doesn't engage in conversation much you almost have to constatnly probe. He clearly feels more comfortable using duragesic. I really think he may be considered hematology.
PPLPMDL0080000001	Richmond Hts	OH	44143	3/8/2002	he hasn't budged off of his two patients that he's been maintaining. I can't get him to move other patients on SA agents over to oxycotin he's hesitant to have two many oxycotin patients in his practice. he says no offense but he has to be careful d/t his history.
PPLPMDL0080000001	Barberton	OH	44203	3/8/2002	Chronic arthritic pain and musculoskeletal pain are the main pain states he is using for OxyContin. ZuWallack study, left for COPD pts already taking Serevent.
PPLPMDL0080000001	Akron	OH	44333	3/8/2002	lets stan do most of the medication for pain likes doing epidurals segwayed into chirocaine but md sold on ropi. does not care to hear about chiro basically very loyal to ropi feels that astra has the rights to anesthetics and study it the most
PPLPMDL0080000001	Barberton	OH	44203	3/8/2002	Maintaining more pts on oxyCotin, new pts with chronic pain are getting the patch.
PPLPMDL0080000001	Cleveland	OH	44109	3/8/2002	talked about dosing oxy and how to start a pt on it, she does not use long acting much, oxy pi and advantages
PPLPMDL0080000001	Akron	OH	44319	3/8/2002	DEA statement and the intractable pain law. He said that OxyContin is being abuse alot out on the street. Showed him the DEA statement and pain law on how to document and to make sure that he has previous records for all pts that may need and opioid for pain.

PPLPMDL0080000001	Akron	OH	44333	3/8/2002	discussed titration ie giving 3 20's instead of dosing to 80 from 40 md still convinced that oxycotin is a tid product no matter what i stated or shared with him in the PI realizes our company stands behind q 12 hour dosing
PPLPMDL0080000001	Akron	OH	44333	3/8/2002	He is doing a breast reduction case and he is going to give the pt 20mg q12h, but he did ask if the pill could be cut in half and i showed him the PI where it states that the tablet can not be broken. We came to an agreement that he would write the 10mg tab and instruct the patient to start taking 2 10mg tabs q12h.
PPLPMDL0080000001	Akron	OH	44320	3/8/2002	discussed assessment and documentation stressing to chart the improvement of quality of life with oxycotin md believes he does a good job with assessment and documentation
PPLPMDL0080000001	Barberton	OH	44203	3/8/2002	Discussed not illegal to write OxyContin out of indication, but did tell her that i always tell the physicians to write it q12h.
PPLPMDL0080000001	Barberton	OH	44333	3/8/2002	He is going to use on 2 cases today, one is an ulnar nerve decompression and the other is a procedure on the left wrist where doing a bone debridement. Both are getting 1-2 10mg tabs q12h.
	Barberton	OH	44203	3/8/2002	Intractable pain law controlled the conversation. Proper pt selection, with assessment and documentation. She is ridding her practice of the pts that are not properly using OxyContin and other opioids. Two new recent pts with arthritic backs, did an initial work up, pain is constant, so starts on 10mg q12h. She is going to have all of her pts fill out the pt comfort assessment sheet while waiting to see her to help gather as much information as possible. Uniphyl, ZuWallack study to add on Uniphyl to Serevent, she has done this on one pt with severe COPD, 400mg qd. Senokot-s.
PPLPMDL0080000001	Stow	OH	44224	3/11/2002	talked about use of doc kit and picking the right pt for pain meds. discomfort feeling with use of oxy is easing r/t lax of media on robberies and abuse and diversion. talked about generic vs brand for uniphyl
PPLPMDL0080000001	Akron	OH	44333	3/11/2002	OxyContin for chronic new pain pts, he does have concerns about diversion and abuse of OxyContin in the community. Uniphyl, ZuWallack study and adding it on to Serevent when pts are not doing well.
PPLPMDL0080000001	Cleveland	OH	44111	3/11/2002	talked uni and copd, new pt start last fri, was on generic, oxy and oa
PPLPMDL0080000001	Akron	OH	44333	3/11/2002	He is using OxyContin for his chronic back and arthritic pain pts. Most pts have been taking a short acting opioid for up to 6 weeks before he is going to a long acting opioid.
PPLPMDL0080000001	Cleveland	OH	44111	3/11/2002	oxy and post op, cases of pts with oxy after pca, talked about how to dose according to how much percoet they would be using, several case types, follow up, senokot

PPLPMDL080000001	Lakewood	OH	44107	3/11/2002	4 senokot and titration guides. they loved those, surprised to hear some people go to 4 tabs/day. Explained that if the constipation due to opiod, it may take that much to counteract the effects. gave doc an oxycotin conversion calculator to highlight titration chart so he can titrate and stay with q12 dosing. he was appreciative, but wanted something that included all meds, brought him an APS book and showed him the equianalgesic chart. He wants it so he can make good conversion from dilaudid to oxycotin or morphine. I showed him where it was on the oxycotin conversion chart and asked if there was somebody he was thinking about converting, he said no, just wanted the info. Next call- ask what is special about dilaudid.

PPLPMDL080000001	Warrensville Hts	OH	44122	3/11/2002	highest dose now is oxy 160 q12h, says that he does not go as high as used to bc of abuse, says he switches talked about the oxy pi, talked about titration
PPLPMDL080000001	Fairlawn	OH	44333	3/11/2002	He has a patient that came to him on 320mg of OxyContin a day. This pt has had multiple back surgeries and just had another one. He said he is feeling better and would like to try and reduce his amount of OxyContin a day. He is now down to 80mg q12h and the goal is to get to 40mg q12h. He is a patient that will probably need pain medication for the rest of his life. We discussed the add on approach to convert pts on short acting opiods to OxyContin per PI. We went over the intractable pain law and documentation and assessment for the proper pt selection.
PPLPMDL080000001	Cleveland	OH	44106	3/11/2002	reviewed the results of Zuwalk study and he reinforced the QOL measures and lower readmissions more imporatn today then just FEV1 next bullet points for Uniphyl
PPLPMDL080000001	Akron	OH	44310	3/12/2002	md's titration of oxycotin is all over the board! started with the basics today and reinforced titration to 3 20's since md goes to 80 right away voiced some concerns with diversion analyzed his pt base and only had 1 diverter so far in over a year refocused to titration for ca pts
PPLPMDL080000001	Cleveland	OH	44109	3/12/2002	oxy per pi, taqlke aboutb use in ed, follow up
PPLPMDL080000001	Cleveland	OH	44115	3/12/2002	Met with Dr. Agneberg. he said that things are very busy. He is promoting morphine for the hospice as it is less expensive than Oxycotin and using Oxycotin when morphine is not effective. He apparently met with Ruth Plant and she is going to provide him with some information he requested. He said if there is anything new, to make sure he gets it.
PPLPMDL080000001	Akron	OH	44333	3/12/2002	What type of pt does he have the most trouble getting to take OxyContin? He responded by saying the majority or almost all of his pts. He has two big cases today one has a bone graft and the other the ulnar ligament repair that he said he will use OxyContin on.
PPLPMDL080000001	Middleburg Hts.	OH	44130	3/12/2002	talked about pain mgmt conference for pa's with dr spiro, anmd on setting up appt with dr sawhny and getting hijm to think oxycotin per approp case
PPLPMDL080000001	Euclid	OH	44132	3/12/2002	Will reinforce the add on strategy for her LTC pts. Dr. told me of pt. at Gateway who was on MS Contin and one of the nurses took pt. off MS Contin and put her on Ultracet. Next day, Toby called Dr. Casteneda back and asked her to put pt. back on MS Contin. She did. I asked Dr. if she feels comfortable writing Oxycotin for non-malignant pain. She said she did in the nursing home, but not in her office. I explained the benefits of Oxycotin in terms of the delivery system compared to MS Contin. I explained other benefits per our PI. Really need to get her to think about Oxycotin for moderate to severe pain.
PPLPMDL080000001	Middleburg Hts.	OH	44130	3/12/2002	says doesnt really use theophyllines is using singular and accolate, no competition and isnt interested in using any other products, maybe someday theop will come back into play, but for now, isnt interested. is using oxy without regard to the media, it is a godo analgesic and does approp doc and implementation on pt. will recommend senokot
PPLPMDL080000001	Cleveland	OH	44113	3/12/2002	talked about what is going to happen to this location office with separation of doctors, he already let go the pa and is probably going to clse tis location, talked about approp pt for oxy and use at mhmc
PPLPMDL080000001	Cleveland	OH	44113	3/12/2002	talked uni and copd, 400mg conversion frtom generic, folow up
PPLPMDL080000001	Middleburg Hts.	OH	44130	3/12/2002	is using oxy bit is learyly wilt media influence he documents each pt and assess per visit. isnt interested in t theophylline family, adn likes senokot and suggested a mix of products with a narcotic and laxative property
PPLPMDL080000001	Middleburg Hts.	OH	44122	3/12/2002	doc says because of his accident, he cannot do anethst and is also not going to do pain mgmt any longer. but he is covering for yokiel in midst of changes in group. he was at symposium at landerhaven
PPLPMDL080000001	Warrensville Hts	OH	44106	3/12/2002	he has great plans for developing APS in VA. He would like support for presentation on how to set up. Rollins from UVA. Fran will work on grant request. He really likes the Purdue conversions charts and wants a ton of them so he can explain to surgeons and nurses why he is converting and prescribing the way he does. We set up lunch on 4/14. He knows not all docs are rx's but thinks that the word will grow on people. Oxycontin only approved for ms contin failures, defined as intolerable side effects or rapid dose escalation. Docs have to call Dr. Fleming for approval and she will make sure the side effects are intractable. Applies to anyone who is getting va benefits, in or out pt.

	Akron	OH	44333	3/12/2002	Talked about Uniphyl, he said all of his patients are getting theo 24 . I mentioned that Uniphyl was the only theo with an evening indication. he asked about onst of action of uniphyl, steday state and signs of toxicity with Uniphyl. I mentioned possible dose dumping with Theo 24. He has samples and wanted to read more about uniphyl, I gave him the study highlights with a dosing card. Next step is to find a new start pt, he said pts are doing well on theo 24. OxyContin, using for chronic arthritic pain, I gave him the intractable pain law and was very interested in reading it. Senokot-s samples.

PPLPMDL0080000001			44333	3/13/2002	His pts at the crystal clinic are getting blocks that last 24-36 hours post op and may not need pain meds until maybe 48 hours later. These pts are also getting a vicodin script for 40 tabs. At the hospital they do not get blocks and there they get OxyContin and vicodin scripts together. The only pts at the clinic that are getting OxyContin are pts that the block does not take or can not tolerate vicodin.
PPLPMDL0080000001	Akron	OH	44333	3/13/2002	He is doing the same thing as Dr Bell, most pts at the clinic are getting blocks after the procedure and he said they can last up to 48 hours. So he just send them home with 40 vicodin and may take vicodin for only a day. OxyContin is being thought of as for more painful procedure at the hospital. At the hospital the pts do not get blocks and experience more pain post op.

PPLPMDL0080000001	Middleburg Hts.	OH	44130	3/14/2002	all insist that they are rixing oxycontin appropriately for pts who are coming in reporting of pain that interferes with sleep. They will start an older person at 10mg/12 for older pts reporting bone pain. Will convert sa pts who are out of control. Roxanne used to work on floor, and says there are still issues there about titrating high enough. But they will go with oxycontin until they get a pt who cannot be compliant with tabs or take oral, so go to patch. Teston says once she gets to more that 160/day, she feels there has to be a problem in the gut and will go iv. break that down with her more. Discussed ease of titration/onset. PPLPMDL0080000001	Akron	OH	44333	3/14/2002	He is using The Duragesic patch for stable pain, he also mentioned using the patch for cancer pain. Once the patients are stable on other medications and he thinks that the pt needs chronic pain medications he will put on the patch, this includes OxyContin. He is not comfortable with titrating OxyContin. one confusing point was his mention that a 25umg patch is not enough and the 50umg patch is too much. Stable pain, some patients do well on OxyContin and other do better on the patch.

I told him that oxycodeone will not show up specifically for these testing, the only way to get specific opioids is to do serum draws and test it this way. I went over the intractable pain law as the steps to take. The most important is patient assessment, he is going to use the patient comfort assessment sheet to have all pain patients fill out and to get as much information about patients. I also emphasized along with the intractable pain law to get previous records of pts and then to evaluate if pts should get opioids for chronic pain. One new recent pt on OxyContin for diabetic

PPLPMDL0800000001	Akron	OH	44312	3/18/2002	Chronic low back pain is the main condition he mentioned using vicodin and percocet, most pts that go to a long acting are from percocet after vicodin. He does not see the equivalence of hydrocodone to oxycodone. OxyContin the best option when going to long acting The Marcus reprint is the best piece to show the advantages of long acting vs short acting.

PPLPMDL0080000001	Cleveland	OH	44106	3/19/2002	Laura at conference today. she wanted to get more senokot samples in unit bring down this week. she did say she has been starting a lot pt on oxycotin because she does think morphine is leading to more dside effects.
PPLPMDL0080000001	Akron	OH	44333	3/19/2002	He wrote two scripts yesterday for chronic arm and wrist pain. He is writing it for two procedures today, one is a scaphoid procedures and the other is a left wrist reconstruction with bone graft. Talked about patients that are not comfortable with OxyContin and he said it is most of his patients.
PPLPMDL0080000001	Rocky River	OH	44116	3/19/2002	Great call he said he has recently stepped up his use of OxyContin because he has seen a lot of success with it. All of his patients have evidence of damage like disc. damage ect. so he is not so concerned with abuse because he does realize that all the pain meds have the same abuse potential anyway. He is switching all his theophylline patients to Uniphyl and he really liked the Jake 2 circle example. He recommends Senokot s FOR ALL HIS PIAN PATIENTS AND FOR CONSTIPATION. hE SAID HE WAS TRAINED WELL WITH AUDREY
PPLPMDL0080000001	Lakewood	OH	44107	3/19/2002	he said he likes to start patients on free samples first then have them get their script filled

PPLPMDL0080000001	Westlake	OH	44145	3/19/2002	he said he likes OxyContin for his chronic patients with moderate to severe constant pain and has not bought into the acute constant pain yet
PPLPMDL0080000001	Akron	OH	44333	3/19/2002	I found out that he gives his patients a vicodin script and their pre op visit and are to gete it filled before surgery day, he usually gives 60 tabs. Some of the patients loose the script before the day of surgery. The convenience of calling in refills and he says that if switched from OxyContin to vicodin after surgery, pts would get suspicious, this is just a cop out, but will only use OxyContin for severe chronic pain where vicodin is not working.

PPLPMDL080000001	Akron	OH	44333	3/19/2002	has the perception that the majority of patients want OxyContin to misuse it. he does have some patients on oxyContin for chronic back pain, that are not being controlled on vicodin. Has alot of apprehension with using opioids for chronic pain, short term use of opioids. Uniphyl for COPD patients with nocturnal problems.
PPLPMDL080000001	Cleveland	OH	44195	3/19/2002	hit the headache clinic
	Akron	OH	44333	3/19/2002	He still is using a ton of vicodin, can not get the difference b/w which patients are getting OxyContin. He does say that the majority of patients that he sees are spine, neck and back pain patients. These patients are either getting 30 days of vicodin before going to surgery or if they are not surgery candidates then he will treat them with pain medications. He usually uses darvocet first, then vicodin and then OxyContin. I tried to talk to him about proper patient assessment but not very interested, he just wants to take the path of least resistance. Patients that come back in 30 days he will give OxyContin, if not coming back for three months he will give vicodin, in case may need a refill and he can just call it in.
PPLPMDL080000001	Cleveland	OH	44195	3/19/2002	hit the PI indication for OxyC and asked if he sees other than headache population answer is not often most all headache next probe into protocol for OxyC/ headache population
PPLPMDL080000001	Lyndhurst	OH	44124	3/19/2002	Next call: How many patients has she carried over from pain management? She wants to still take care of her pain patients probably 200 or more will follow her at lyndhurst. In the scope of her new practice cluster head aches are a good patient type for oxycontin d/t duration of up to 2 months. She will continue to maintain her low back patients if they follow here.
PPLPMDL080000001	Akron	OH	44313	3/19/2002	chronic pain, low back pain or arthritic condition. She also mentioned OxyContin for cancer pts. Two recent pts both were back pts not being controlled on vicodin. Left her a uniphyl dosing piece.

PPLPMDL080000001					

	Lakewood	OH	44107	3/20/2002	lunch great call , He said he has cooled on OxyContin since the media. Tried to get him to reflect on successes with OxyContin . He said he was using Oxy for all kinds of Orthopedic surgery. So we talked about patients with constant pain. He agreed that they will benefit greatly. He said docs are preachers of habit and he had just gotten out of habit. He talked about a patient who had a bad fall and broke several bones in upper part of body and who is going through lots of Percocet.He said he would switch them to Oxy either today or tomorrow

PPLPMDL0800000001	Cleveland	OH	44109	3/20/2002	Discussed the use of Uniphyl as add on for her COPD pts. Showed her the ZuWallack study with Serevent. Explained the benefits of adding low dose theophylline. She tends to agree, but doesn't seem to take a lot of action.
PPLPMDL0800000001	Akron	OH	44320	3/20/2002	Next time will try to pin down one pt.
	Cleveland	OH	44195	3/20/2002	Mekhal still really upset about stanton hicks money. explained that with internal changes, the request just fell through the cracks. assured him that purdue is partnering for the long term and that this is just a bump on the road and we will earn his trust. appt next week to discuss other ways purdue can support dept. fattouh, brown, henry, net, linda, brenda all in on a discussion about fattouh's statement admitting that when he sees a chart with oxycontin, he is already biased about that pt because he says people only give him a hard time about oxycontin. What he meant was if he tries to change they complain, or they just want it. I asked why he would change and he did not have a good answer. then we discussed the classic techniques seeker use but that those need to be addressed individually. bias can interfere with pts getting good control. then he asked what the dea says about oxycontin, so I was able to give him the joint statement. Dews and yulia in pt. rooms, just a quick hi to them. talked to brown about resubmitting request for texts. materials I handed out were senokot protocols, side effect piece, terms in pain mgmt.
PPLPMDL0800000001					talked in hall, post op, with makil again, talk about how to dose in cases needing more than 20mg, use 10mg, follow up
PPLPMDL0800000001	Cleveland	OH	44111	3/20/2002	he said he always goes to oxycontin first for his patients with constant pain that is at least moderate to severe
PPLPMDL0800000001	Westlake	OH	44145	3/20/2002	doc and pam were asking about new program. doc did not seem to be happy about not getting the 30 days and the increased info requirements, but is thankful.
PPLPMDL0800000001	Beachwood	OH	44122	3/20/2002	he speaks as if the joint statement is for other docs so they can feel better about rx controlled drugs but since he's a pain guy it's no that big of deal to him
PPLPMDL0800000001	Euclid	OH	44119	3/20/2002	She said she will put the lady on Uniphyl with COPD, she is noncompliant and once a day uniphyl is a good option. OxyContin for chronic arthritic pain fibromyalgia and diabetes myelitis.
PPLPMDL0800000001	Akron	OH	44333	3/20/2002	I talked about a patient that is now taking 20mg q8h of OxyContin. The patient is very suspect and they have not obtained past medical records of the patient. He came to the practice taking lortab and dr converted to 10mg q12h of OxyContin. now he is up to 20mg q8h because she only wants him to take OxyContin and not lortab inbetween for back pain. She is going to have him sign an opioid agreement contract and fill out the comfort assessment sheet. Talked about referral to a specialist for back pain. intractable pain law and the opioid documentation kit is going to be implemented.
					OxyContin use is for only the most severe pain patients, basic OA pts are getting vicodin. The abuse of OxyContin is concern and he thinks OxyContin is too strong for OA darvocet and vicodin is the strongest he says the patients need.
PPLPMDL0800000001	Akron	OH	44333	3/20/2002	quick product reference he said just titrated one to 30 tid and knows about our recommended Q12 dose schedule
PPLPMDL0800000001	Cleveland	OH	44195	3/20/2002	titration. He feels that 20mg is the most common her writes for. he has gone upto 80mg but it's rare and some of his patients will take it tid if they aren't getting enough control. he feels that if the patients says it works tid then they are the gold standard and that's the way they should take it.
PPLPMDL0800000001	Cleveland	OH	44117	3/20/2002	focused on comparison regarding duragesic and oxycontin in an indirect way i.e. when pain escalates, ease and simplicity no need to worry about adipose tissue for absorption nurse states she is using more duragesic even for pts that can swallow md very receptive and agreeable with statements and APS backing. POA: ctd now to focus on simplicity of oxycontin and titration--

PLPMDL0080000001	Euclid	OH	44117	4/2/2002	new patients, he starts on average about 1-2 patient a month. he did mention that he waws quite surprized by the physician being put in jail in florida that was Rx oxycontin. He agreed with me that we have no way of knowing what his pain practices were like and the the information we were getting through the newspapers was biased at best. he has a comfort level at about 80mg bid he has a patient that his being seen by demagone now who is a 160 bid but he doesn't feel that this patient is within his realm of expertise. Even though the patient is doing well and he has support from pain management he is not comfortable rx a dose that high. It's just the way

PLPMDL0080000001	Euclid	OH	44132	4/3/2002	JP his PA big influence on him. they have about 30-40 patients on oxycontin. mostly elderly woman who are on 10-20mg q-12 and have improved in all of their ADL's because of it. the biggest obsatcle is that if one of their elderly patients is afraid to take it because of what they hear on the tv or read in the news papers. He agreed to keep using it's a great drug in his opinion because it works the best and is tolerated the best.

	Euclid	OH	44119	4/3/2002	she hasn't been showing up on early view. She speaks as if she is using as she always had. If patients are taking SA moe frequently and they are not expected to come out of that cycle with in a couple days then she will consider oxycontin

PPLPMDL0080000001	Gates Mills	OH	44040	4/5/2002	next call. did he start any rheumatoid patients and where is he using codeine for pain managment on a patient that could benefit from oxycotin. I asked him what advantages their are to using codien in a patient that may be experiencing more continuous pain? He feels that codien is a step below oxycotin he rather start htem off on something less potent. I agreed with him if they can get away with only 1 or 2 a day or every other day but the ones that are taking 4-6 a day would probably do better on oxycotin 10mg q-12 he agreed.

PPLPMDL080000001	Akron	OH	44333	4/11/2002	He said that patients are complaining that 20mg of OxyContin q12 is too much, it is knocking the patients out. I got him to agree to use the 10mg tabs and have them start out taking 1 tab and if need more can take 2. He has a case where he is removing melanoma spots from a lady's neck and will do some grafting, where he is going to use oxyContin.
PPLPMDL080000001	Fairlawn	OH	44333	4/11/2002	Patients that are getting the patch are pts that are getting their OxyContin scripts stolen. Example used was a guy that has had his OxyContin script stolen by his son three times. Another patient was in the office now, said he just had his OxyContin pill stolen out of his apartment by gunpoint. I suggested that if the patient is not compliant and can't be trusted to take the patient off of OxyContin, he did not tell me what he is going to do with the patient. I left him copies of the new patient PPI for OxyContin to help counsel his patients on the proper use of OxyContin.

	Cleveland	OH	44102	4/18/2002	Met with Dr. Menyah. He still has not received any of the information he ordered from the advisory board meeting he attended. He is still very on board with the appropriate use of Oxycontin. He is a strong believer of using opioids to relieve pain where appropriate. He would like to do some speaking at pivotal dinners or lunches for us. He would be great at this. We also discussed whether he uses theophylline. He said he never uses theophylline anymore. He admitted to being afraid of the side effects. He seems to think the elderly will get side effects (littery) even at low doses. I need to show him data to dispute this. I also need to show him the data that theophylline has antiinflammatory effects as he thinks al COPD has an asthmatic component.
PPLPMDL080000001	Cleveland	OH	44113	4/18/2002	doc liked pt pi. he thought we should call cvs to say that we would like to be involved. He is involved in Banaga's case and thinks there is a lot of garbage in there. He met Burke and really enjoyed his conversation, just to hear what docs are doing outthere. We talked about combo pts who could be converted to oxcy. but he said he has noone who needs it that is not on it. Just back from punta cana too.

He bases decision if dose is nothing or if pt is taking more than 2 brkthru. He will start long acting lftpt taking morethan 5 doses aday of sa. Reminded ofnication. Did say he had one pt with real bad constipation with oxy so he added methadone. asked why not start bowel protocol, no response. we talked about avoiding polypharmacy and troubles with methadone. Werner very inquisitive about what the whole big deal with oxycontin abuse. He figured must be something about taking the tab. No problem with ms. talked about how that caught thecompany by surprise too. But I explained that all c2's have same potential for abuse. He generally writes for ms out of habit. reasons to rx oxy v ms, onset, no metabas, stigma, side effects, true q12, explained that if decides to rx oxy start with about half of what he was used to with ms. and be ready to titrate. We also talked about titration. Virginia is supervisor over both cancer centers and inpt. would like some inservices. call PCC up there to set up.
